*Innovative Perspectives on Corporate Communication in the Global World* Olvera-Lobo, María Dolores, Gutiérrez-Artacho, Juncal, Rivera-Trigueros, Irene, Díaz-Millón, Mar, 2021-04-23 Today's global markets demand that companies of all sizes look to international markets for potential customers. The successive crises that have taken place in the last decade make the internationalization of companies essential. This situation is further aggravated in the case of SMEs as surviving only from national markets is becoming increasingly difficult. Indeed, the economic sphere is in constant flux which demands that companies have a great capacity for adaptation to face the new challenges of an ever more globalized and difficult market. In this context, new forms of business communication are emerging especially through the web and new technologies. Digital marketing and the dissemination of corporate information have become key processes for the success of companies. It is therefore crucial to research different digital marketing processes and ways of breaking down linguistic and cultural barriers between users from different sociolinguistic contexts. *Innovative Perspectives on Corporate Communication in the Global World* contains different contributions focused on the description of methods, processes and tools that can be adopted to achieve corporate internationalization goals. The chapters provide a comprehensive review of the why, what and how of disseminating corporate information and promoting corporate digital communication into internationalization processes. These strategies can be related to the development of digital tools, the design of new corporate communication strategies, the proposal of new ways of breaking social and linguistic barriers between technology users or the creation of new methodologies aimed at evaluating the effectiveness of digital marketing strategies. This book is ideal for marketers, managers, executives, entrepreneurs, practitioners, researchers, academicians and students interested in new corporate communication strategies and their effectiveness.

**Dynamics of Internet Usage on Corporate Communication in Kenya** Toroitich Benedict, 2015-12-24 The proliferation of social media has revolutionized the corporate communications world over. The book delves deeper on the use of the social media as a strategic corporate communication medium. The Internet as an innovative platform housing multiple channels of communication is largely responsible for the presence of businesses on the web space. As a result, businesses soon find themselves in a position not only to feed Internet channels with content but also to manage the content vis-à-vis content on other platforms. In the context of the Kenyan University settings, this calls for the attention of public relations (PR) practitioners who are positioned in the corporate affairs department to manage the image of the institutions they represent by use of the social media platforms. The book therefore roots for the usage of the Internet as well as emphasizing the need to gain an understanding of the emerging issues in corporate branding with respect to the Internet as a communicative tool for businesses and image building. Although the literature has little evidence from Kenyan contexts, theoretical arguments indicate many uses of the Internet for business communication by PR practitioners.
