Drop by Drop Morgan Llywelyn, 2018-06-26 Morgan Llywelyn gives readers a near-future apocalyptic thriller with her signature depth and intimacy of character. In *Drop by Drop*, the first in a new trilogy, global catastrophe occurs as all plastic mysteriously liquefies. All the small components that make many technologies possible—navigation systems, communications, medical equipment—fail. In Sycamore River, citizens find their lives disrupted as everything they've depended on melts around them, sometimes with fatal results. All they can rely upon is themselves. And this is only the beginning. Llywelyn blends her signature character-driven portrait of small-town life with the appeal of William Fortschen's *One Second After*. *Environments in Science Fiction* Susan M. Bernardo, Donald E. Palumbo, C.W. Sullivan III, 2014-03-26 The all-new essays in this book respond to the question: How do spaces in science fiction, both built and unbuilt, help shape the

relationships among humans other animals and their shared environments Spaces as well as a sense of place or belonging play major roles in many science fiction works This book focuses especially on depictions of the future that include but move beyond dystopias and offer us ways to imagine reinventing ourselves and our perspectives especially our links to and views of new environments There are ecocritical texts that deal with space place and science fiction criticism that deals with dystopias but there is no other collection that focuses on the intersection of the two
