Ethics And Infinity Conversations With Philippe Nemo:

Ethics and Infinity ,1997 Ethics and Infinity Emmanuel Lévinas,Philippe Nemo,1985 A masterful series of interviews with Levinas conducted by French philosopher Philippe Nemo which provides a succinct presentation of Levinas s philosophy *The Oxford Handbook of Levinas* Michael L. Morgan,2019-04-10 Emmanuel Levinas 1906 1995 emerged as an influential philosophical voice in the final decades of the twentieth century and his reputation has continued to flourish and increase in our own day His central themes the primacy of the ethical and the core of ethics as our responsibility to and for others speak to readers from a host of disciplines and perspectives However his writings and thought are challenging and difficult The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways Some focus on central themes of his work others on the ways in which he read and was influenced by figures from Plato Hobbes Descartes and Kant to Blanchot Husserl Heidegger and Derrida And there are essays on how his thinking has been appropriated in moral and political thought psychology film criticism and more and on the relation between his thinking and religious themes and traditions Finally several essays deal primarily with how readers have criticized him and found him wanting The volume exposes and explores both the depth of Levinas s philosophical work and the range of applications to which it has been put with special attention to clarifying why his interests in the human condition the crisis of civilization the centrality and character of ethics and morality and the very meaning of human experience should be of interest to the widest range of readers **Beyond Clinical Dehumanisation towards the Other in Community Mental Health Care**

Catherine A. Racine,2021-03-30 Beyond Clinical Dehumanisation Toward the Other in Community Mental Health Care offers a rare and intimate portrayal of the moral process of a mental health clinician that interrogates the intractable problem of systemic dehumanisation in community mental health care and looks to the notion of wonder and the visionary relational ethics of Emmanuel Levinas for a possible cure An interdisciplinary study with transdisciplinary aspirations this book contributes an original and compelling voice to the emerging therapeutic conversation attempting to re imagine and transcend the objectifying constraints of the dominant discourse and the reductive world view that drives it Chapters bring into dialogue the fields of community mental health care psychology psychology and the Other the philosophy of wonder Levinasian ethics clinical ethics the moral research of autoethnography and the medical humanities to consider the defilement of the vulnerable help seeker the moral injury of the clinician and look for answers beyond This book is an ethical primer for mental health professionals researchers educators advocates and service users working to re imagine and heal a broken system by challenging the underpinnings of entrenched dehumanisation and standing with those they serve **The Existential Philosophy of Etty Hillesum** Meins G. S. Coetsier,2014-01-09 In The Existential Philosophy of Etty Hillesum Meins G S Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum s spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum s diaries and letters

written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum s path to spiritual freedom **Levinas and James** Megan Craig,2010 Bringing to light new facets in the philosophy of Emmanuel Levinas and William James Megan Craig explores intersections between French phenomenology and American pragmatism Craig demonstrates the radical empiricism of Levinas s philosophy and the ethical implications of James s pluralism while illuminating their relevance for two philosophical disciplines that have often held each other at arm s length Revealing the pragmatic minimalism in Levinas s work and the centrality of imagery in James s prose she suggests that aesthetic links are crucial to understanding what they share Craig s suggestive readings change current perceptions and clear a path for a more open pluralistic and creative pragmatic phenomenology that takes cues from both philosophers *Stolen Churches or Bridges to Orthodoxy?* Vladimir Latinovic,Anastacia K. Wooden,2021-01-15 Throughout their shared history Orthodox and Eastern Catholic Churches have lived through a very complex and sometimes tense relationship not only theologically but also politically In most cases such relationships remain to this day indeed in some cases the tension has increased In July 2019 scholars of both traditions gathered in Stuttgart Germany for an unprecedented conference devoted to exploring and overcoming the division between these churches This book the second in a two volume set of the essays presented at the conference explores the ecumenical and practical implications of the relationship between Orthodox and Eastern Catholic Churches Like the conference the volume brings together representatives of these Churches as well as theologians from different geographical contexts where tensions are the greatest The published essays represent the great achievements of the conference willingness to engage in dialogue general openness to new ideas and opportunities to address difficult questions and heal inherited wounds

Vulnerability Henk ten Have,2016-04-08 Alongside globalization the sense of vulnerability among people and populations has increased We feel vulnerable to disease as new infections spread rapidly across the globe while disasters and climate change make health increasingly precarious Moreover clinical trials of new drugs often exploit vulnerable populations in developing countries that otherwise have no access to healthcare and new genetic technologies make people with disabilities vulnerable to discrimination Therefore the concept of vulnerability has contributed new ideas to the debates about the ethical dimensions of medicine and healthcare This book explains and elaborates the new concept of vulnerability in today s bioethics Firstly Henk ten Have argues that vulnerability cannot be fully understood within the framework of individual autonomy that dominates mainstream bioethics today it is often not the individual person who is vulnerable rather

that his or her vulnerability is created through the social and economic conditions in which he or she lives Contending that the language of vulnerability offers perspectives beyond the traditional autonomy model this book offers a new approach which will enable bioethics to evolve into a global enterprise This groundbreaking book critically analyses the concept of vulnerability as a global phenomenon It will appeal to scholars and students of ethics bioethics globalization healthcare medical science medical research culture law and politics

Argumentation and Advocacy, 2003 **Phenomenological Inquiry**, 2007 **Zygmunt Bauman** Peter Beilharz, 2002 *Hermeneutics and Religious Education* Herman Lombaerts, Didier Pollefeyt, 2004 **South African Journal of Philosophy**, 2006 **Postfoundational Phenomenology** James R. Mensch, 2001 The result is a concept of selfhood that allows us to see how consciousness arising from sensuous experiences follows from the temporal features of embodiment

Human Values and Social Change Thottamon Kantan Kesavan Narayanan Unnithan, 2000 The contribution in this volume focus on a wide range of issues concerning both human values and social change in the context of a multi cultural and multi civilizational world including the perspectives of the social sciences and gandhian studies It examines the varied dimensions of the search for values the paradigmatic changes taking place in europe and the west and the questions pertaining to value education and spirituality as well as the spell of Gandhi and the issues pertaining to non violence peace humanism colonialism and globalization Many eminent sociologists along with a wide range of distinguished scholars including jurists philosophers monks educationists literateurs administrators political scientists historians gandhian scholars peace activists professors of andragogy and religion both from India as well as abroad have contributed to this festschrift which is in honour of professor T K N Unnithan making it a representative thought provoking anthology on human values and social change

Ad Veritatem, 2002 *Theology, Disability and the New Genetics* John Swinton, Brian Brock, 2007-08-21 A unique text which focuses on the theory and practice of the church as it engages with the complex issues that are emerging in response to new genetic technology

Partial Answers, 2003 **Business Education and Training** Samuel M. Natale, Anthony F. Libertella, 2003 A continuation of the ongoing Oxford University's Centre for the Study of Values in Education and Business The papers deal with the interactive effect of business and education as well as the moral and ethical concerns underpinning each

Interpreting Contemporary Art Stephen Bann, William Allen, 1991-07-23 The interpretation of contemporary art has always presented the critic with the hardest challenge yet today as new and often bewildering trends and movements come to the fore with dizzying speed a critical engagement with the works of our own time is particularly vital Each contributor to *Interpreting Contemporary Art* has looked at his chosen painting sculpture photograph or installation with a conviction that the work's own importance can be enhanced by what is written about it From the French critic Marcelin Pleynet writing about a painting by Robert Motherwell to the English artist and critic Victor Burgin who chooses a photograph by Helmut Newton the range of contributions covers a broad international field touching upon virtually all the most significant art forms

of the present day Anyone seeking a greater substance in writings on the art of the last two decades going beyond the major critical orthodoxies of recent years and who wishes to understand more about the profound links which unite the art of our own period with that of the past will find this book full of invaluable insights into the kaleidoscope of contemporary art
