Eu Competition Law Volume Vi Vertical Restraints:

The Normative Foundations of European Competition Law Oles Andriychuk, 2017-08-25 Does competitive process constitute an autonomous societal value or is it a means for achieving more meritorious goals welfare growth integration and innovation The hypothesis of The Normative Foundations of European Competition Law is that the former is the case This insightful book analyses the phenomenon of competition from philosophical legal and economic perspectives demonstrating exactly why competitive process should not be viewed only as an instrument It consolidates various normative theories of freedom market and competition and explains how exactly they can be operationalized effectively in the matrix of the EU competition policy

The Evolution of European Competition Law Hanns Ullrich, 2006-01-01 Professor Ullrich is thoughtful and attracted star scholars from many countries so the papers and discussion are provocative and introduce recent economic thinking although many are written by lawyers The text is lucid and interesting the thought innovative and anyone seriously interested in competition policy should read these papers and the comments with pleasure Valentine Korah World Competition This collection of papers and comments deserves to be widely read and it should appeal to academics and practitioners alike The great mix of topics and the variety of views offered make this a very stimulating contribution to the discussion of the new paradigm of EC competition law the more economic approach and its implications for the application and interpretation of the various EU antitrust rules Thomas Eilmansberger European Law Journal The editor should be congratulated for bringing together this diverse group of scholars whose spirited disagreements remind one of the many challenges faced in exploring the role and function of competition law Giorgio Monti European Review of Contract Law With contributions from leading scholars from all over Europe and the US this book covers the major areas of substantive competition law from an evolutionary perspective The leitmotiv of the book has been to assess the dividing line between safeguarding and regulating competition which it does by reviewing the following subjects foundations of competition policy in the EU and the US strategic competition policy the evolution of European competition law from a national Italian perspective the block exemption of vertical agreements after four years the new Technology Transfer Block Exemption cooperative networking mergers in the media sector abuse of market power concepts of competition in sector specific regulation competition regulation and systems coherence efficiency claims in EU competition law and sector specific regulation The Evolution of European Competition Law will be of great interest to lawyers economists academics judges and public officials working in the fields of competition law and policy

Competition Law in Austria Viktoria H.S.E. Robertson, 2021-10-21 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of competition law and its interpretation in Austria covers every aspect of the subject the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control tests of illegality filing obligations administrative investigation and enforcement procedures civil remedies and criminal penalties and raising challenges to

administrative decisions Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another as well as the international aspects of competition law Throughout the book the treatment emphasizes enforcement with relevant cases analysed where appropriate An informative introductory chapter provides detailed information on the economic legal and historical background including national and international sources scope of application an overview of substantive provisions and main notions and a comprehensive description of the enforcement system including private enforcement The book proceeds to a detailed analysis of substantive prohibitions including cartels and other horizontal agreements vertical restraints the various types of abusive conduct by the dominant firms and the appraisal of concentrations and then goes on to the administrative enforcement of competition law with a focus on the antitrust authorities powers of investigation and the right of defence of suspected companies This part also covers voluntary merger notifications and clearance decisions as well as a description of the judicial review of administrative decisions Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for business and legal professionals alike Lawyers representing parties with interests in Austria will welcome this very useful guide and academics and researchers will appreciate its value in the study of international and comparative competition law

EU Competition Law Mario Siragusa, Gianluca Faella, 2020-07-15 This new volume analyzes in considerable detail the antitrust issues arising from vertical restraints and presents a comprehensive map and critical assessment of current enforcement practice in the European Union The purpose of the book is to provide extensive guidance to practitioners businesses and researchers as well as to contribute to the ongoing debate on the application of EU competition rules to distribution and other vertical agreements The book contains thoughtful contributions written by leading practitioners and scholars from different countries which address the general framework for assessing vertical restraints and cover a wide range of vertical practices After discussing the pro competitive rationale the potential negative effects of vertical restraints and the introduction of an economic approach by the Commission the book examines the block exemption regulation and critically reviews the limits of the 2010 revision of EU rules on vertical restraints It then explores in detail the enforcement practices concerning the most commonly used vertical restrictions and specific agreements entered into by firms situated at different levels of the production chain In particular the book provides an extensive review of the issues raised by the individual assessment of resale price restrictions exclusive distribution and customer allocation selective distribution single branding tying upfront access payments and category management Specific chapters are also devoted to franchising agency and sub contracting agreements The book s continuous references to economic analysis insights as well as the comparisons with the experiences of other legal systems contribute to its value and usefulness Series EU Competition Law Vol 6 Practical Aspects
