Liberalization of Electricity Markets and the Public Service Obligation in the Energy Community Rozeta Karova, 2012-02-01 This book presents the first in depth analysis of the export of the EU electricity acquis through the imposition of an EU type regional electricity market REM in SEE within the enlargement process Among other germane issues the author discusses the following the suitability of the European model of electricity markets liberalization for economies in transition the use of the Public Services Obligations PSO to address the impact of electricity markets liberalization the use of regulated prices and measures for granting priority rights for cross border capacity allocation as PSOs the Court of Justice judgement in Federutility on the sustainability of states protection of their different types of customers including the large businesses the Energy Community as a step towards a Pan European Energy Community the effect of simultaneous national electricity markets liberalization and cross border regional integration of national electricity markets and the interplay between liberalization policy and reforms and the regulatory tools available to address their

impact on provision of public services The author's proposed rethinking of the public services obligation offers new views on using this tool more effectively and proposes possibilities for its practical implementation through measures such as energy efficiency allocation of interconnectors capacity transparency addressing the affordability issue and the protection of vulnerable customers The book is remarkable for its clear analysis of the policy lessons arising from the export of the idea of liberalized energy markets and will be welcomed by practitioners officials academics and others in energy law and policy for its informative and forward looking overview of the national and cross border reforms in the Energy Community framework

The Economic Adjustment Programme for Greece European Commission. Directorate-General for Economic and Financial Affairs, 2011 Reviews assessing Greek compliance with the terms and conditions of the economic adjustment programme required to be issued prior to the quarterly aid payments scheduled to be completed in 2013 OECD Development Pathways Multi-dimensional Review of the Western Balkans Assessing Opportunities and Constraints OECD, 2021-06-10 The Western Balkans region has come a long way over the last two decades in achieving economic and social progress With a population of 17.6 million the region today boasts a combined gross domestic product GDP of close to EUR 100 billion an average GDP per capita of about EUR 5 400 and a comprehensive process of integration with the European Union The Liberalization of State Monopolies in the European Union and Beyond Damien Geradin, 2000 The book explores the many legal and economic challenges emerging from the liberalization process engaged by the European Community with respect to state monopolies It is divided into three parts Taking a sectoral approach the first part is devoted to expert analyses of the liberalization measures adopted by the Community in the areas of telecommunications postal services energy and air and rail transport The objective is to provide a detailed and up to date review of the most significant developments that have taken place in these key industry sectors The second part deals with more conceptual issues such as the impact of the liberalization process on consumer protection and public service obligations It also analyzes the main issues emerging from the creation of strategic alliances in the telecommunications and aviation sectors The third part takes a comparative and international law perspective It examines the extent to which monopolies have been opened to competition in the United States and the lessons which may be drawn from the American experience It also discusses the liberalization measures negotiated in the framework of the World Trade Organization with a special reference to the agreement recently concluded in the area of telecommunications The papers written in the book are by leading experts on state monopolies and take a pluridisciplinary approach covering not only legal but also economic and political science issues Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *European Access*, 1998 Refining Regulatory Regimes David Coen, Adrienne Windhoff-Héritier, 2005 Regulation is on the rise across the world as the state steps back from public ownership However as the authors highlight the style of political delegation to

regulatory authorities has not followed a uniform trajectory but rather institutional endowments administrative traditions market structure and business culture have all influenced the creation of regulatory authorities and implementation styles Noting these variances the focus of this book is to consider the impact of liberalisation and the introduction of new regulatory structures on three utility sectors telecommunications energy and the railways using Germany and the UK as case studies With regulation seeking to foster competition at the same time as also having to protect essential services the authors investigate regulatory styles costs of new regulatory functions and how firms in the new regulatory landscape access and influence regulatory authorities The authors consider how EU pressures may hinder or help the functioning of new regulatory markets and the establishment of business regulator relationships as well as the broader policy implications for these new regulatory environments The book also determines how regulatory authorities emerge and evolve under different state traditions and assesses over time the degree to which there is potential for convergence divergence and continued differences as regulatory functions mature This book will be warmly welcomed by researchers and academics of comparative public policy politics and regulation It will also appeal to policy makers and the business community in Europe
