The Beginner Investor: a Beginner's Guide to Stock Market Investing Danial Jiwani,2020-04-25 Written By A 17 Year Old Best Selling Author who Outperforms the S P 500 Customer Reviews This book was great It is life changing and completely

worth it Amazon Customer Very informative book for the first time investor and a good companion for the experienced An otherwise complex subject made easy to understand with step by step instructions Zulfikar K The Value Provided in The Beginner Investor In order to be successful at stock market investing you need a straightforward strategy and formula that will let you determine the exact price to purchase a stock Traditionally guessing that a stock will go up because it is at a low P E is not the way to beat the market In The Beginner Investor one of the best stock market investing books for beginners serial investor Danial Jiwani reveals a simple investing formula that has proven to provide returns that outperform the stock market for beginners It is literally a formula that will provide the exact price to purchase a stock and the book provides key fundamental security analysis and investing lessons for beginners His strategies have worked in 2019 and they will continue to work for beginners in 2020 It s a stock market book to help you invest like Warren Buffet and It s the modern day version of The Intelligent Investor by Benjamin Graham and a better version of the Stock Market for Dummies series Danial Jiwani has taught over 1 000 people how to make money in stocks and has been featured in major news outlets like the Chicago Tribune and CBS News all before the age of 18 He teaches beginners and experienced investors He consistently outperforms the market using his formula He wants to make stock market investing easy especially for beginners through his investment guide and intro to the stock market By the end of reading this stock market book for beginners dummies and noobs you will Consistently Outperform the market even during 2020 s unprecedented market conditions Discover the Fundamentals and Principles of Investing and Security Analysis Feel Assurance and Calmness that you will be successful Only buy high quality businesses at attractive prices Make investment decisions like Warren Buffet **Investing for Beginners** Mark Kratter,2021-05-16 55% OFF for Bookstores NOW at 23 95 instead of 37 95 Do you want to maximize your profit and make money with this guide for beginners and advanced traders Your Customers Will Never Stop To Use This Awesome Book A stock is basically a share of the company A share refers to a part of the company including its finances and every other asset that it owns When the company decides to go public with its shares it announces an IPO or initial public offering Anybody interested in buying the shares will then approach the company and pay the share value to own the shares This is known as primary selling These shares are then sold in the share market The share market is a huge place where buyers and sellers converge to conduct daily trade These shares are then bought and sold and the seller capitalizes on the current price of the share which will be much higher than what he had bought it at The buyer will have the chance to capitalize on the share once its value rises Companies decide to go public with their shares due to many reasons But the main reason is to raise capital for their business So they will value their company and split the shares They will then value individual shares depending on their market capture and asset to liability ratio A small company might capture a big market share and a big company might capture a small share It depends on the individual company s board members decision The stock market is huge and there are many companies that list their shares As an investor you must choose the best one for yourself and invest wisely Wanted
