

How effective is art therapy for trauma recovery?

01

Art therapy offers multiple techniques for trauma recovery. Mandala creation, body mapping, expressive collage, digital art, and guided visualization are some effective methods.

02

Creating mandalas can increase calmness and focus in just 15-20 minutes. Body mapping helps trauma survivors reconnect with their physical selves and track progress over time.

03

Expressive collage allows for metaphorical expression of complex emotions. Digital art reduces anxiety about making mistakes and appeals to younger clients or those with physical limitations.

The Entrepreneurial Humanities Alain-Philippe Durand, Christine Henseler, 2023-06-07 With AI cryptocurrency and more in the news it seems that being an entrepreneur means being in IT but humanities graduates are launching new businesses every day turning a profit and having social impact This book explores how a humanities background can enable entrepreneurs to thrive Across all levels of education students are given the message that to change the world or make money the arts and humanities are not the subjects to study At the same time discussions of innovation and entrepreneurship highlight the importance of essential skills such as critical thinking storytelling cultural awareness and ethical decision making Here s the disconnect the subjects that help to develop these vital skills are derided at critical points in any aspiring entrepreneur s education This collection of perspectives from entrepreneurs in a range of fields and humanities educators illustrates what individuals and the wider world are missing when humanities are overlooked as a source of inspiration and success in business Featuring a foreword by Sensemaking author Christian Madsbjerg this is a thought provoking guide for aspiring entrepreneurs in all sectors and for educators a window on the practical value of the humanities in an ever more mechanized world _ Sail Through the Storms with Cash Transfer Jonatan Lassa, 2022-11-22 World Humanitarian Summit in 2016 call for humanitarian industries including the United Nations and NGOs to bolder promote the use of cash transfers in responding to disasters This book documents experiences and collects personal accounts on disasters COVID 19 and cash transfers from disaster survivors in Indonesia whose lives intersect with other survivors and humanitarian responders ranging from local activists to NGOs workers The survivors are often labelled as project beneficiaries Cash assistance and disaster payments are temporary income for the affected community It is no silver bullets despite their rich potential to reduce vulnerability and suffering One of the promises of such assistance is that it can help both women and children survive and rebuild their lives after a crisis be it from

a natural catastrophe or man made hazards The question is how such assistance is understood in a fuller context of a survivor s complex life To its critics humanitarian cash assistance is like a drop of salt in the ocean in that it is not enough to make a difference to disaster affected people s lives Nevertheless the question is how a relatively small size and temporarily distributed cash assistance within a short time window can significantly impact the beneficiaries life at a particular time and places ruined by disasters Survivors and beneficiaries are not just numbers They are humans with stories worth listening to This book shows that to what extent cash assistance can be of meaningful they must be understood in a fuller context of people s lives stories including their wade dreams that go beyond the cold and dry quantitative evaluation measures that are often chasing the numbers with a certain percentage of Yes and No in agreeing or disagreeing about how good and helpful support is to the life of the crisis affected people *Peacebuilding in Traumatized Societies* Barry Hart,2008-02-26 This work examines trauma identity security education and development as issues of critical importance to peacebuilding and social reconstruction after large scale violence This violence takes the form of war mass killings and genocide as well as structural violence that has humiliated and impoverished millions of people across the globe Transitional justice leadership religion and the arts are other crucial issues that are included in this analysis of violence and its transformation The book explores how each issue can be independently addressed for transformational purposes but argues for their active interdependence in order to more effectively help individuals communities and societies emerge from violence and begin the rebuilding process *Peacebuilding for Traumatized Societies* examines these issues in theoretical and practical terms through case studies and descriptions of training and problem solving procedures in Rwanda the Balkans Colombia and the Philippines **Exiting Violence** Debora Tonelli, Gerard Michael J. Mannion,2024-06-04 In the 20th and 21st centuries where violence has scarred countless lives the interplay between religion politics and conflict remains a complex web *Exiting Violence* looks to untangle some of these knots showing not only how faith can ignite bloodshed but also how it can inspire peace and build bridges Resulting from an international collaboration between the Fondazione Bruno Kessler RESET Dialogues Among Civilizations and the Berkley Center for Religion Peace and World Affairs this collection assesses the state of scholarship and explores the differing ways in which religion can contribute to societies and communities exiting situations of violence and hatred From Biblical hermeneutics to Buddhism from secularism to legal systems *Exiting Violence* offers a nuanced and thought provoking exploration of the multifaceted role religion plays in the human struggle for peace and justice Children and Youth in Armed Conflict (2 vols.) Ann-Charlotte Nilsson,2013-12-05 Children and youth in armed conflict grow up in very challenging circumstances Thus an in depth examination of the many interrelated issues they face is warranted which this comprehensive book provides This book addresses their situation in a multidisciplinary way linking their reality in peacetime to their situation in wartime and deals with issues such as their economic social and cultural rights public health the traumatic consequences of war whether violence gives rise to violent behavior the United Nations

Convention on the Rights of the Child and international humanitarian law Other issues explored include the provision of education in armed conflict the African Union's Kampala Convention on internally displaced persons Colombia's Constitutional Court's Auto decision 251 on internally displaced children and youth the Inter American African and European human rights work on children in armed conflict and the numerous challenges involved with transitional justice Further the Monitoring and Reporting Mechanism set up by Security Council resolution 1612 2005 the work of the Security Council Working Group on Children and Armed Conflict and the Offices of the Special Representatives of Children and Armed Conflict and on Sexual Violence in Conflict gender based violence and the African Youth Charter are studied This is a book that students and professionals from different disciplines and backgrounds including from academia international organisations non governmental organisations the medical community governments etc will find to be a valuable resource in their quest to learn more about an area of study that has long been neglected 2 Volume set Searching for Normal in the Wake of the Liberian War Sharon Alane Abramowitz, 2014-07-03 At the end of Liberia's thirteen year civil war the devastated population struggled to rebuild their country and come to terms with their experiences of violence During the first decade of postwar reconstruction hundreds of humanitarian organizations created programs that were intended to heal trauma prevent gendered violence rehabilitate former soldiers and provide psychosocial care to the transitioning populace But the implementation of these programs was not always suited to the specific mental health needs of the population or easily reconciled with the broader aims of reconstruction and humanitarian peacekeeping and psychiatric treatment was sometimes ignored or unevenly integrated into postconflict humanitarian health care delivery Searching for Normal in the Wake of the Liberian War explores the human experience of the massive apparatus of trauma healing and psychosocial interventions during the first five years of postwar reconstruction Sharon Alane Abramowitz draws on extensive fieldwork among the government officials humanitarian leaders and an often overlooked population of Liberian NGO employees to examine the structure and impact of the mental health care interventions in particular the ways they were promised to work with peacekeeping and reconstruction and how the reach and effectiveness of these promises can be measured From this courageous ethnography emerges a geography of trauma and the ways it shapes the lives of those who give and receive care in postwar Liberia **Civil Society and Peacebuilding in Sierra Leone** Vandy Kanyako, 2024-04-23 This book investigates the important role of local actors in Sierra Leone in helping to foster peace and provide for the needs of vulnerable populations following the end of the civil war Despite severe economic political and in some cases security challenges local civil society organizations in Sierra Leone have expanded rapidly over the last 20 years incorporating their local knowledge and traditions into their work to cater to the needs of war affected populations However the preference of international development donors for funneling resources and technical assistance through civil society groups at the expense of central government has also created some resentment and backlash This book examines this intersection between civil society

donors and government in Sierra Leone considering both the relevance of civil society activities and their limitations and what this means ultimately for human security in the country Highlighting the importance of African civil society actors as proactive agents of change this book will be of interest to researchers and stakeholders across the fields of African peacebuilding development and conflict resolution Disaster and Traumatic Stress Research and Intervention ,2000

Treating Abuse Today ,1995 *Planning Education in and After Emergencies* Margaret Sinclair,2002 If educating populations that have been affected by crises or natural disasters is vital to the rebuilding of communities this book argues that education should figure as priority among all the crucial issues to be addressed as it is essential to the future of these populations It is meant as an aid to organizations and educational planners with discussions of issues such as funding inclusive education safety in schools trauma healing curriculum activities and distance learning Publisher s description
