Award Winning Psychology Of Success:

The Nature of Trends Ray Barros, 2011-11-16 Today's market participants have a myriad of tools at their disposal. Yet the success rate is that of old: 80% to 90% of traders fail to achieve their financial goals. This book shows traders how to get their investment act together. It covers in detail the three requirements needed for success: Winning psychology, effective money management, and a written trading plan with an edge. The Nature of Trends also provides unique tools, for example the MIDAS tool that provides low risk trade entry by telling the trader the level at which an entry may be safely effected. Finally the book provides the Rule of 3 to manage a trade. These rules allow the trader to take profits and hold on for long term profits without increasing risk.

How to Become a Successful Trader Ned Gandevani, 2002-10 How To Become A Successful Trader offers an exciting tool for traders, investors, and hedge fund managers to maximize their trading performance. You gain a deeper understanding about how to enhance the positive forces of your psychology to create a winning career. With the knowledge of your Trading Personality you are able to customize strategies and decide which method of trading, either Discretionary System, a Mechanical System, or a Hybrid System, is best suited to your personality. This book provides a road map and selection criterion for mutual funds, banks, hedge fund managers, and trading firms on how to choose a more effective trader for their firm. Dr. Gandevani's book utilizes scientific research in dealing with trading psychology. His professional experience in trading and dealing with many traders, whom he has trained, as well as extensive research on psychology, provided the unique and necessary insight for writing this book.
