Yet despite the volume of resources exploring both innovation and leadership, most approaches provide directional solutions that are merely anecdotal. In addition, these fictive solutions lack sufficient information for leaders to utilize their own capacities to make measurable change. As a college student, you are provided with many opportunities to develop your own leadership skills and capacities through coursework, co-curricular involvement, and part or full-time work experiences. You are the future leaders of our companies, our nonprofit organizations, our government, and our education system. It is extremely important that we, as a society, invest in the development of our future leaders. We know that leadership plays a critical role in today's ever-changing world, and that innovation is a strategic necessity for tackling the tough problems we face today and those we will face in the near future. Still, ensuing questions on how to lead and where to innovate remain puzzling for leaders and world leaders. What is the role of leadership in times of looming uncertainty? How will organizations innovate to overcome largely unprecedented challenges? And how can we work together and leverage our strengths to more effectively address the future small and large challenges we will encounter in our organizations? This workbook is designed to help answer those questions and to help you with the critical self-evaluation needed to refine and innovate your own leadership skills. It is fundamentally about leadership yet

equally an account of applying innovation      Leadership & Management Adeola Babatunde,2013-11-16 Using a very refreshing approach to the study of Leadership This book analysis several works of literature that provides excellent insights into real World Leadership skills and management It talks about how to build a high performing team in a hyper connected World If you are serious about improving your leadership skills and moving your Organisation to the next level this book is a necessity      *Global Executive Leadership Inventory (GELI), Participant Workbook* Manfred F.
