

## 1 Unpacking

1. Remove the contents from the box. Remove all tape and packing material from the printer. Be sure not to touch the ribbon cable inside the printer.

2. Attach the paper support and plug in the printer.

## 2 Installing the Ink Cartridges

1. Press the power button to turn on the printer.

2. Shake the ink cartridge four or five times before opening the package, and remove the ink cartridges from their protective bags.

### Caution:

- Do not break the hook on the side of the ink cartridge when you remove it from the protective bag.
- Do not shake the ink cartridge after removing it from the bag. This can cause leakage.
- Do not remove or tear the label on the cartridges. This can cause leakage.

3. Install the ink cartridges as shown below.

### Caution:

- Push the ink cartridge down until it clicks into place.
- Do not move the print head by hand; otherwise, you may damage the printer.
- Do not load paper until ink charging is complete.

### Note:

Install all the cartridges. The printer will not work unless all cartridges are installed properly.

4. Press the ink button.

The printer begins ink charging. It takes about one and a half minutes. While charging, the printer produces a variety of mechanical sounds. This is normal. When the green light stops flashing, ink charging is complete.

### Caution:

- Do not turn off the printer during the ink charging process.

### Note:

The ink cartridges packaged with your printer are partly used during initial setup. In order to produce high quality printouts, the print head in your printer will be fully charged with ink. This one-off process consumes a quantity of ink and subsequent cartridge sets will last for their full rated life.

See the other side of this sheet to install the printer software.

## Safety Instructions

Read all of the instructions in this section when setting up and using your printer.

### When choosing a place for the printer

- Avoid places subject to rapid changes in temperature and humidity. Also, keep the printer away from direct sunlight, strong light, or heat sources.
- Avoid places subject to dust, shocks, or vibrations.
- Leave enough room around the printer to allow for sufficient ventilation.
- Place the printer near a wall outlet where the plug can be easily unplugged.
- Use only the power cord that comes with the printer in all directions. If you place the printer by the wall, make sure that the cord is between the back of the printer and the wall. The printer will not operate properly if it is placed in a wrong position.
- When plugging or unplugging the power cord, hold it at its base, and if it is loose, or turn it upside down. Otherwise ink may leak from the cartridge.

### When choosing a power source

- Use only the type of power indicated on the printer's label.
- Use only the power cord that comes with the product. Use of another cord may result in fire or electric shock.
- The product is a power cord for use with the product only. Use with other equipment may result in fire or electric shock.
- Be sure your AC power cord meets the relevant local safety standards.
- Do not use or damage or replace power cord.
- If you use the printer with the power, make sure that the total capacity rating of the device plugged into the extension cord does not exceed the cord's capacity rating. Also, make sure that the total capacity rating of all devices plugged into the wall outlet does not exceed the wall outlet's capacity rating.
- If you plan to use the printer in Germany, the building installation must be protected by a 15 A or 16 A circuit breaker to provide adequate short-circuit protection and over-current protection for the printer.

### When handling ink cartridges

- Keep the cartridges out of reach of children. Do not allow children to play with or use the cartridges.
- Do not open the ink cartridge packages until just before you install them.
- Shake the new ink cartridges four or five times before opening the packages.
- Do not grab the ink cartridges after opening the packages. This can cause leakage.
- Be careful not to break the hook on the side of the ink cartridge when you remove it from the package.
- Be careful when you handle used ink cartridges, as there may be some ink remaining around the ink supply port. If the ink gets on your face, wash the area thoroughly with soap and water. If it gets into your eyes, flush them immediately with water. If it gets into your mouth, spit it out and wash your mouth with water. Do not swallow.
- Do not remove or tear the label on the cartridges. This can cause leakage.
- Do not touch the green IC chip on the side of the cartridge.
- The IC chip on the ink cartridge stores a variety of cartridge-related information, such as the amount of ink remaining, so that a cartridge may be removed and reinserted freely. However, each time the cartridge is inserted, some ink is consumed because the printer automatically performs a reliability check.
- Store the cartridge with its label facing upward. Do not store cartridge upside down.

### When using the printer

- Do not put your hand inside the printer or touch the ink cartridges during printing.
- Do not touch or move the print head during printing.
- Do not attempt to remove the printer printout.
- Unplug the printer and call servicing to qualified service personnel under the following conditions:
  - Both print heads do not move and the printer does not print.
  - The printout is distorted or the print quality is poor.
  - The printer does not operate normally or exhibits a distinct change in performance.
- Do not insert objects through the slot in the printer.
- Take care not to spill liquid on the printer.
- Leave the ink cartridges installed. Removing the cartridges can obstruct the print head and may prevent the printer from printing.
