Lesson 1-1

1. The sum, product, difference, or quotient of real numbers is a real number. Subsets of the real numbers are the set of rational numbers and the set of irrational numbers. The rational numbers include integers, the integers include whole numbers, and the whole numbers include natural numbers. **3.** Rational numbers are a subset of all real numbers because all rational numbers are also real. Rational numbers are not a subset of the irrational numbers because no rational numbers are irrational. **5.** Yes. All the values in D are also in R . **7.** no **9.** 0.6, $\frac{2}{3}$, $\sqrt{\frac{9}{16}}$ **11. a.** rational **b.** rational **13.** The student should have written $\sqrt{144} = 12$. So, the correct order is $\sqrt{144}$, 68, 12, $\frac{234}{3}$. **15. a.** Sometimes true; positive integers and zero are whole numbers, but negative integers are not. **b.** Always true; natural numbers are a subset of rational numbers. **c.** Never true; although integers and irrational numbers are both subsets of real numbers, they have no elements in common. **17.** rational, real **19.** whole, integers, rational, real **21.** integers, rational, real **23.** 0.16, $\frac{1}{3}$, $\sqrt{\frac{1}{4}}$ **25.** D **27.** A **29.** Rational; can be expressed as a ratio **31.** Irrational; divisor is irrational

33. Yes; the quotient of a rational number and an irrational number can be rewritten as a ratio with a rational number in the numerator and an irrational number in the denominator, so the quotient will always be irrational. **35.** rational numbers **37.** no; no; no; yes; no; yes **39. Part A** Kimberly; she has the highest free throw percentage. **Part B** Martin; 49.5% is greater than 920, or 45% and 0.448, or 44.8% **Part C** Kimberly, Corey, Martin **Part D** Kimberly; Kimberly makes about 54.8% of her shots, while Corey only makes 52.8%, and Martin only makes 50.8%.

Lesson 1-2

1. Use variables and operations to model situations with algebraic equations. Then use properties and inverse operations to isolate the variable on one side of the equation. The other side of the equation is the solution. **3.** It removes the fractions to make the equation easier to solve. **5.** 2 **7.** $\frac{37}{4}$ **9.** $\frac{50}{21}$, or about 2.38 miles; Answers may vary. Sample: The equation $\frac{d}{2} + 2.25 + \frac{d}{40} = 3.5$ models this situation. Multiplying both sides by the LCD, 40, gives $20d + 90 + d = 140$, which simplifies to $21d = 50$. **11.** -3

The Transformational Odyssey Robert Barner, 2017-07-01 *The Transformational Odyssey* was written to help those individuals who are facing difficult life transitions and who are attempting to successfully navigate tough life decisions and engage in deep self discovery Unlike other self help books that attempt to provide readers with homespun advice for addressing difficult life challenges *The Transformational Odyssey* shows readers how to take charge of their self growth and development It does this

by providing readers with several applied techniques for engaging in deep self learning in a more profound and fundamentally life changing way The title The Transformational Odyssey reflects the book s integrative metaphor of transformational learning as a personal odyssey of self discovery The word odyssey connotes a long and sometimes arduous and meandering journey Although an odyssey may present the traveler with unexpected trials and challenges in the end it may yield increased wisdom and knowledge Building on this metaphor The Transformational Odyssey introduces readers to eight passages that they will inevitably encounter during their own personal odysseys of self discovery Each of these passages involves a uniquely different learning challenge that as it is successfully navigated increases the reader s capacity for self growth The Transformational Odyssey is written in a conversational style as if the author were sitting down next to the reader to share my forty plus years of experience as a personal coach and life transition counselor Since different people learn in different ways this book incorporates a variety of different learning methods including actual cases exercises suggested actions famous quotes and metaphors For those readers to would like to dig deeper on a given topic at the end of each chapter the author has included a separate section that introduces readers to related cutting edge research in the field of human psychology The topics included in these sections cover such areas as mindfulness meditation narratives and future selves

ENDORSEMENTS

The Road to self discovery is one that has been traveled before The Transformational Odyssey explores this journey in a unique and different way by beginning at the intersection of academic exploration and the examination of authentic experiences Robert Barner finds ways to challenge his readers while also guiding each person in a way that is most logical and emotionally transcendent to them And he does so in an insightful compelling way I highly recommend this book to anyone who is ready to be vulnerable and wants to grow Kevin Beachum Jr NFL Athlete Investor Speaker Philanthropist This is a dazzlingly ambitious book and it does not disappoint Thought provoking compelling and an extraordinary source of scientifically based insight for anyone seeking to improve their lives Jim Loehr Best Selling Author Co Founder of The Human Performance Institute The Transformational Odyssey enlists the reader in a powerful journey grounded in their own creative imagination and wells of inspiration This road of self renewal is exciting and dangerous and the work is not for the timid Robert Barner knows the territory intimately and is a guide you can both trust and enjoy Charles J Palus Senior Fellow Center for Creative Leadership In The Transformational Odyssey Dr Robert Barner offers what few self help books do a research based journey into self awareness leading to real and sustained change In embarking on this journey readers will become more attuned to their experiences more open to others and more effective leaders partners parents and friends I highly recommend this book for those courageous enough to encounter transformational learning Jaime Goff Certified Executive Coach and President The Empathic Leader LLC
