Handbook of Public Policy Evaluation Frédéric Varone, Steve Jacob, Pirmin Bundi, 2023-10-06 This comprehensive Handbook examines public policy evaluation in democracies Focusing on the political dimension of the evaluation process it argues that policy evaluation can be an emancipatory tool reducing social inequalities and exclusion and offers novel suggestions on how evaluations can be used to improve democratic policymaking

Analytics the Right Way Tim Wilson, Joe Sutherland, 2024-12-27 CLEAR AND CONCISE TECHNIQUES FOR USING ANALYTICS TO DELIVER BUSINESS IMPACT AT ANY ORGANIZATION Organizations have more data at their fingertips than ever and their ability to put that data to productive use should be a key source of sustainable competitive advantage Yet business leaders looking to tap into a steady and manageable stream of actionable insights often instead get blasted with a deluge of dashboards chart filled slide decks and opaque machine learning jargon that leaves them asking So what Analytics the Right Way is a guide for these leaders It provides a clear and practical approach to putting analytics to productive use with a three part framework that brings together the realities of the modern business environment with the deep truths underpinning statistics computer science machine learning and artificial intelligence The result a pragmatic and actionable guide for delivering clarity order and business impact to an organization s use of data and analytics The book uses a combination of real world examples from the authors direct experiences working inside organizations as external consultants and as educators mixed with vivid hypotheticals and illustrations little green aliens petty criminals with an affinity for ice cream skydiving without parachutes and more to empower the reader to put foundational analytical and statistical concepts to effective use in a business context

Telling Stories with Data Rohan Alexander, 2023-07-27 The book equips students with the end to end skills needed to do data science That means gathering cleaning preparing and sharing data then using statistical models to analyse data writing about the results of those models drawing conclusions from them and finally using the cloud to put a model into production all done in a reproducible way At the moment there are a lot of books that teach data science but most of them assume that you already have the data This book fills that gap by detailing how to go about gathering datasets cleaning and preparing them before analysing them There are also a lot of books that teach statistical modelling but few of them teach how to communicate the results of the models and how they help us learn about the world Very few data science textbooks cover ethics and most of those that do have a

token ethics chapter Finally reproducibility is not often emphasised in data science books This book is based around a straight forward workflow conducted in an ethical and reproducible way gather data prepare data analyse data and communicate those findings This book will achieve the goals by working through extensive case studies in terms of gathering and preparing data and integrating ethics throughout It is specifically designed around teaching how to write about the data and models so aspects such as writing are explicitly covered And finally the use of GitHub and the open source statistical language R are built in throughout the book Key Features Extensive code examples Ethics integrated throughout Reproducibility integrated throughout Focus on data gathering messy data and cleaning data Extensive formative assessment throughout *Acta Physiologiae Plantarum* ,1978 Herbage Publication Series Commonwealth Bureau of Pastures and Field Crops,1975 *Bulletin* Commonwealth Bureau of Pastures and Field Crops,1975 **Weed Technology** ,1999
