Space Opera For Beginners:

The Science Fiction Handbook M. Keith Booker, Anne-Marie Thomas, 2009-03-30 The Science Fiction Handbook offers a comprehensive and accessible survey of one of the literary world's most fascinating genres. Includes separate historical surveys of key subgenres including time travel narratives, post-apocalyptic and post-disaster narratives, and works of utopian and dystopian science fiction. Each subgenre survey includes an extensive list of relevant critical readings, recommended novels in the subgenre, and recommended films relevant to the subgenre. Features entries on a number of key science fiction authors and extensive discussion of major science fiction novels or sequences. Writers and works include Isaac Asimov, Margaret Atwood, George Orwell, Ursula K. Le Guin, *The War of the Worlds* 1898, *Starship Troopers* 1959, *Mars Trilogy* 1993, 6 and many more. A Science Fiction Glossary completes this indispensable Handbook.

Cultural Legal Studies of Science Fiction Alex Green, Mitchell Travis, Kieran Tranter, 2024-10-28 This book presents and engages the world-building capacity of legal theory through cultural legal studies of science and speculative fictions. In these studies, the contributors take seriously the legal world-building of science and speculative fiction to reveal, animate, and critique legal wisdom, jurisprudence. Following a common approach in cultural legal studies, the contributors engage directly and in detail with specific cultural texts: novels, television, films, and video games in order to explore a range of possible legal futures. The book is organized in three parts: first, the contextualisation of science and speculative fiction as jurisprudence; second, the temporality of law and legal theory; and third, the analysis of specific science and speculative fictions. Throughout, the contributors reveal the way in which law as *nomos* builds normative universes through the narration of a future. This book will appeal to scholars and students with interests in legal theory, cultural legal studies, law and the humanities, and law and literature.

The Rise and Fall of American Science Fiction, from the 1920s to the 1960s Gary Westfahl, 2019-10-04 By examining important aspects of science fiction in the twentieth century, this book explains how the genre evolved to its current state. Close critical attention is given to topics including the art that has accompanied science fiction, the subgenres of space opera and hard science fiction, the rise of SF anthologies, and the burgeoning impact of the marketplace on authors. Included are in-depth studies of key texts that contributed to science fiction's growth, including Philip Francis Nowlan's first Buck Rogers story, the first published stories of A. E. van Vogt, and the early juveniles of Isaac Asimov, Arthur C. Clarke, and Robert Heinlein.

The Victorian Era in Twenty-First Century Children's and Adolescent Literature and Culture Sonya Sawyer Fritz, Sara K. Day, 2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people. In turn, this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals, particularly as they relate to child and adolescent readers and our experiences of them. The essays therein suggest that we struggle now as the Victorians did then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of, or a parallel to, the disruptions taking place on a
