EBOOK The Economics of European Integration 6e Richard Baldwin, Charles Wyplosz, 2019-04-05 **EBOOK The Economics of European Integration 6e** **Conflicted Memories** Konrad Hugo Jarausch, Thomas Lindenberger, Annelie Ramsbrock, 2007 Despite the interest in general European history the European dimension is surprisingly absent from much of the writing of contemporary history In most countries the historiography on the 20th century is dominated by national perspectives This book focuses on the development of a shared conception of European history Handbook of Research on Unemployment and Labor Market Sustainability in the Era of Globalization Füsün Yenilmez, Esin K?l?ç, 2016-12-28 The effective utilization of available resources is a pivotal factor for production levels in modern business environments However when resources are limited or in excess this effects organizational success as well as the labor market The Handbook of Research on Unemployment and Labor Market Sustainability in the Era of Globalization is a comprehensive reference source for the latest scholarly research on the socio economic dynamics of unemployment and the development of new policies to assist in regulating the global labor market Highlighting innovative approaches and relevant perspectives such as outsourcing trade openness and employment protection this publication is ideally designed for policy makers professionals practitioners graduate students and academics interested in emerging trends for labor market development **Strategic Regions in 21st Century Power Politics** Jakub Landovský, Martin Riegl, Irina Valko, 2014-11-19 Resource wars identity conflicts disinformation geostrategic rivalries global power shifts and an increasing number of non state actors make it difficult to analyse contemporary international relations At the same time contemporary power rivalries are increasingly affected by currency wars economic diplomacy competitive intelligence economic warfare indirect strategies and state capitalism The events in Ukraine in Spring 2014 reconfirm that Thomas Friedman s flattening of the world based on the coincidence of the collapse of the Berlin Wall and the emergence of Netscape and the Web workflow software uploading outsourcing offshoring supply chaining insourcing in forming and steroids like Facebook and Instagram goes hand in hand with the fact that as postulated by Robert Kaplan geography still matters in a global world Globalization exists because of

local processes and local processes are ultimately shaped by globalization Geography remains among the primary factors shaping a country's foreign policy This book addresses the most fundamental geopolitical issues observable in a region where the great game of geopolitics is particularly still alive in East and South East Asia The contemporary geopolitical situation in this part of the world is far from stable the width and depth of economic integration in the region resonates with the nature of political relations crises in the global financial system climate change and the regional security architecture inherited from the Cold War era In terms of power relations the particular changes in the region's status quo imply an immediate intensification of the PRC's activities within the framework of political and security dialogue with its direct neighbors ultimately leading to a rivalry between China and the United States The studies presented in this book largely focus on East and South East Asian actors and problems while studies of the situation in other global regions enrich the research by adding a global dimension to the study of regional geopolitical affairs
