Economie Bretonne Questions Jacques Certaines:

La communication organisationnelle en débat Collectif, Christian Le Moënné, 2001-01-20 Depuis une vingtaine d'années on observe la montée en puissance de la communication interne et externe des organisations privées et publiques en liaison notamment avec l'implantation croissante des technologies de l'information. En même temps ce phénomène s'accompagne du développement important de l'ingénierie sociale ce qui a pour effet d'accroître la diffusion des innovations organisationnelles et de remettre en question les normes, les procédures, les dispositifs organisationnels ainsi que les relations de travail. Cette évolution du champ professionnel qui interroge nombre d'acteurs individuels et collectifs est désormais largement étudiée par les sciences humaines et sociales dans des perspectives tant disciplinaires (sociologie, gestion, économie, psychologie sociale) tant transversales. Cette livraison anniversaire de Sciences de la Société numéros double se propose de faire le point sur un certain nombre de débats nouveaux ou récurrents qui traversent ce champ scientifique en voie de constitution et de présenter un état provisoire des recherches, des questionnements et des problématiques dans quelques domaines clés de la communication organisationnelle.
