Education Classroom Sharon Vaughn, Candace S. Bos, Jeanne Shay Schumm, 2007 Based on the belief that even small accommodations make a difference in the success of students with disabilities this text provides classroom teachers with the knowledge tools and practical strategies that will empower them to spark learning in every student From students with disabilities culturally diverse students and students with limited English proficiency to economically disadvantaged students Vaughn Bos Schumm provides teachers with the tools they need in their diverse classrooms Revised to reflect recent changes in the law IDEA 2004 a new chapter on Developing Independence in Learning an all new Tech Tips features that has received rave reviews a revised chapter Managing Student Behavior that emphasizes school wide behavior management and positive behavioral support an expanded chapter on Collaborating and Coordinating with Other Professionals and Family Members with increased coverage of co teaching a revised chapter on Planning and Grouping Strategies for Special Learners that reflects an increased emphasis on grouping and expanded coverage of secondary education via chapter opening interviews new photos and new examples throughout the text The Young Deaf Or Hard of Hearing Child Barbara Bodner-Johnson, Marilyn Sass-Lehrer, 2003 As deaf and hard of hearing children are identified at an increasingly early age professionals need to expand their knowledge about early intervention and education for these young children and their families This scholarly text from the experts provides a solid foundation of research key concepts and practical suggestions Essential reading for early childhood educators education professionals speech language pathologists and students this comprehensive resource fully prepares readers for successful partnerships with families and their deaf and hard of hearing children **Instruction of Students with Severe Disabilities** Martha E. Snell, 1993 This is a comprehensive and current description of research based methods on teaching students with severe disabilities including students with autism and functional skill needs A great reference book Reflects 1997 IDEA in all chapters particularly those that deal with the topics of transition and families Adds a chapter on peer social relationships Creates and maintains reader interest with effective photographs vignettes specific charts and unique figures tables Reinforces its comprehensive research base with current studies For educators and school administrators **Collaborative Teams for Students with Severe Disabilities** Beverly Rainforth, Jennifer York-Barr, 1997 Equally useful as a training text and as a professional development tool this resource helps both students and professionals update their knowledge refine their skills and increase their effectiveness *Educational Psychology* Thomas Fetsco, John McClure, 2005 I applaud the vision the authors had in synthesizing this information in a way that makes the reader more confident in their application of these theories and principles to their own classrooms The authors have wonderfully succeeded in their attempt to integrate this material in a manner quite different from other texts I ve read or reviewed Jim Persinger Emporia State University Any textbook that overemphasizes theory neglects the real world any textbook that overemphasizes practice neglects the underlying foundation of theory This book strikes a careful balance between theory and practice by explicitly linking the two Gregory Cutler Bay de Noc Community College By far this is the

best educational psychology text I have read because it integrates and applies major learning theories to many of the daily issues future teachers will face Krista Robertson Rhode Island College I see this textbook as well written informative clearly and logically organized and a very useful component for a course in Educational Psychology I like it Raymond E Webster East Carolina University The authors have done an excellent job in producing an easy to follow format and style Paula Holmes Miller Crichton College The authors writing style and presentation level are clear and easy to read along with tables figures concept maps and other visual aids Yuliang Liu Ph D Southern Illinois University The text is well written and some very difficult topics such as Attribution Theory and Constructivism to name just two are easy to understand when compared to similar books I think this is some of the clearest writing I have read in a long time Michael P Verdi California State University San Bernadino I really enjoyed reading this text and I found its comprehensive nature to be a strength Linda W Morse Mississippi State University The authors writing style is clear simple and direct It speaks directly to the reader the examples are concrete and related to education John Isch Martin Luther College

Adapting Early Childhood Curricula for Children in Inclusive Settings Ruth E. Cook, Annette Tessier, M. Diane Klein, 1996 This comprehensive book takes a non categorical approach to preparing future early childhood teachers to help infants and young children with disabilities meet their challenges and develop to their fullest potential The result is a versatile and compelling resource of field experience Coverage is organized around four themes how all young children learn children in the context of their family traditional developmental domains and the need to take a synthesized view of the whole child Dozens of developmentally appropriate activity based strategies for adapting curriculum to suit both children and their families are provided in every chapter For future early childhood education teachers who will work with exceptional children and need to focus on special needs rather than special labels
