Economic Transition Of Enterprise Restructuring:

The Determinants of Enterprise Restructuring in Transition Simeon Djankov, Peter Murrell, 2000-01-01 Over the last decade more than one hundred fifty thousand large enterprises in twenty seven transition countries have encountered revolutionary changes in every aspect of their political and economic environments Some enterprises have responded to the challenge entering world markets with great dynamism and becoming indistinguishable from their competitors in mature market economies Others remain mired in their past undergoing protracted deaths delayed at times by their slippage into a netherworld of barter and ersatz money Thus the revolutionary changes in transition countries have been matched by great variation in the degree to which enterprises have responded successfully to events To assess the effectiveness of the different reform and privatization strategies empirical research on transition countries has examined enterprise level data to ascertain whether enterprises have responded productively to changes in ownership and to other reform measures This volume provides a general assessment of the evidence generated by these studies In providing the assessment it discusses the general context of the studies assesses the evidence on whether state owned or privatized firms undertake more economic restructuring studies the effects of restructuring on different types of owners focuses on the role of managers analyzes the effect of greater discipline in the government's reaction to enterprises in distress examines how variations in product market competition affect enterprise restructuring and examines the role of the institutional and legal framework This publication will be of interest to policy makers and readers interested in gaining an overview of the current state of the evidence

Entrepreneurship and Economic Transition in Central Europe Jean-Paul Larçon, 2012-12-06 Since the fall of the Berlin Wall in 1989 Central European economies have been moving rapidly toward a common set of goals political democracy market oriented economies and integration into the European and international business community For businesses Central Europe offers a unique window of opportunity and in particular two comparative advantages a low cost qualified workforce and stronger growth rates than mature Western European economies This opportunity seized by local entrepreneurs and foreign enterprises alike is a significant competitive threat to companies not present in the region or who have not found alternative strategies for increased growth and competitiveness This book addresses economic transitions in Central Europe and analyzes the problems of Central European integration in the European Union

Transition Economics Peter Luke, 2012-07-26 Celebrating twenty years of transition from socialism to capitalism this book is designed to be the core textbook for undergraduate courses in transition economics and comparative economic systems Given the passage of time Transition Economics Two Decades On reviews and accounts for the outcomes in the so called transition economies and from an academic perspective takes the reader through developments and issues in the twenty years of transition from plan to market Treating its subject matter thematically the book incorporates much of the transition economics literature and evidence that have evolved over the past two decades In particular the authors focus on the most important aspects of

economic transition including The initial conditions at the outset of transition Paradigms and patterns of transition The main transition policies and economic reforms The performance of transition countries and firms The lessons from transition The textbook covers a wide range of both contemporary microeconomic and macroeconomic issues in over thirty ex socialist European and Asian countries including Russia and China Transition Economics Two Decades On is more than just a book about a particular part of the world or the transformation that was experienced at a particular time in history The authors believe that the study of the economics of transition gives the reader an insight into theories policies reforms legacies institutions processes and lessons that have application and relevance beyond the specific transition from plan to market to other parts of the world and to other times in history

Transition, Recession and Labour Supply Paolo Verme,2017-10-05 This title was first published in 2001 Exploring the relationship between the recession and labour supply in Kazakhstan during the 1990s this volume develops an innovative new model of the transitional process in the context of the CIS It departs from conventional economic models explaining the process of transition transferring the focus of attention from labour demand to labour supply with a view to clarifying how the transitional recession has affected households and in turn how these changes modified the supply of labour Paolo Verme examines how the dynamic of the reallocation of labour between state and private enterprises has been drastically altered by the growth of self employment and also takes a much needed look at the contribution of other factors offering an original explanation of this most important economic phenomenon

Restructuring and Managing the Enterprise in Transition Roy L. Crum,Itzhak Goldberg,1998-01-01 A wide gap still exists between Western concepts and their application in the ex socialist countries during transition Most Western models in financial management make assumptions about the efficiency and stability of

markets and the signals that can be obtained and also assume that traditional accounting information is available and can be used for management purposes A new paradigm is needed to manage the finance function in a transition economy experiencing hyperinflation since standard assumptions are not valid in most ex socialist countries This book describes the adaptations of financial techniques as it reviews standard financial concepts and tools adjusts them when necessary to the unique conditions in the ex socialist enterprises and then presents the restructuring context and some strategies that are based on the application of these tools
