Current Issues in Stuttering Research and Practice Nan Bernstein Ratner, John A. Tetnowski, 2014-04-04 This state of the art volume is a follow up to the 1999 publication *Stuttering Research and Practice Bridging the Gap* edited by Nan Ratner and E Charles Healey Like its predecessor the current book is an edited collection of the presentations from the American Speech Language Hearing Association's Annual Leadership Conference in Fluency and Fluency Disorders Among the topics covered are evidence based practice impact of the self help and support groups meta analyses of selected assessment and intervention programs current theories of stuttering and the predicted path of stuttering intervention in the future The authoritative representation of contributors offers the reader the most up to date presentation of fluency issues with a special emphasis placed on the practical clinical implications of fluency assessment treatment and evolving theories of the disorder The book is written for fluency specialists and graduate students in programs of fluency disorders It will also be valuable for the clinicians who wish to upgrade their skills in treating fluency disorders

Stuttering Joseph S.

Kalinowski,Tim Saltuklaroglu,2005-11 This textbook presents a new paradigm for understanding the nature and treatment of stuttering based on recent discoveries in neuroscience The authors illustrate how visible stuttering manifestations are actually a solution to a central problem acting as a compensatory mechanism for a central involuntary block rather than a problem in themselves This book features methods that reduce stuttering by inhibiting this central block through the use of sensory and motor tools notably mirror neurons and shows readers that stuttering is not a condition that can be effortlessly trained out of the system or eliminated via simple speech retraining

Multilingual Aspects of Fluency Disorders Peter Howell,John Van Borsel,2011-05-11 This book contains contributions by scholars working on diverse aspects of speech who bring their findings to bear on the practical issue of how to treat stuttering in different language groups and in multilingual speakers The book considers classic issues in speech production research as well as whether regions of the brain that are affected in people who stutter relate to areas used intensively in fluent bilingual speech It then reviews how formal language properties and differential use of parts of language affect stuttering in English and then compares these findings to work on stuttering in a variety of languages Finally the book addresses methodological issues to do with studies on bilingualism and stuttering and discusses which approach is appropriate in the treatment of bilingual and multilingual people who stutter
