Then twenty years after the fire extraordinary alarming things begin to happen. Adam, now a successful architect, discovers proof of Lis' survival and realizes he can not turn his back on the slim chance of finding her, though it means losing everything he has. Armed with a mysterious fragment of ancient high tech and aided by an old friend who also knows what really took place in 1976, Adam decides to try reopening the portal. But others have their own sinister plans for it. Unbeknownst to Adam, events already underway will soon put him at the center of a long deferred battle that may well determine the fate of all Humanity.
