Getting America Right The True Conservative Values Our Nation Needs Today:

Getting America Right Edwin J. Feulner, 2006-03-07 Where did we take a wrong turn That s what proud conservatives are asking The era of liberal dominance is finally over but sometimes you wouldn t know it Government spending is out of control huge waves of illegal immigration endanger our security and our American identity more and more Americans look to Washington for the quick fix the government grabs for more power at the expense of our liberty American businesses are fleeing overseas and terrorism threatens us more than ever How do we deal with these crises when our leaders refuse to By following Edwin J Feulner and Doug Wilson s unique and practical six point plan specific steps that every one of us can take to put America back on course As conservative leaders Feulner as president of the nation s preeminent think tank The Heritage Foundation Wilson as chairman of America s leading conservative news and community website Townhall com the authors know that what will rescue us now are the things that have always made this nation great free enterprise limited government individual freedom traditional American values a strong national defense and the rule of law We must demand accountability and a return to our core principles *Getting America Right* reveals Stunning real world examples of government run amok and how it hurts you The politicians who are selling out and the brave souls who are fighting for what s right How to restore fiscal discipline among Washington s pork addicted pols Feulner and Wilson identify ridiculous programs we should slash now The blueprint for getting the federal government out of our way and out of our pockets The threats Washington is ignoring and the steps we must take at home and abroad to ensure our security What you can do to hold politicians accountable What is at risk if we fail Nothing less than the freedom prosperity and security of ourselves and our children and grandchildren We must get it right each and every one of us And we need to start today As Newt Gingrich writes in his foreword to *Getting America Right* The blueprint for our action yours and mine is contained within the pages of this remarkable book Also available as an eBook Visit GettingAmericaRight.com for more resources to join the fight to put America back on track [Selections from Getting America Right](#) Edwin J. Feulner, Doug Wilson, 2006 *An Open Autopsy on America* Paul Schilling, 2018-06-16 This book is an expos on how America is responding to tumultuous activities since her founding It has become obvious to most Americans that their nation has hit the crossroads of a paradigm of events The author on the other hand as a member of this society began to study intensely what was going on and what effects people were going through when the standing president Barack Obama would say one thing and then do exactly the opposite through executive fiat The stealing of documents by former Secretary of State Hillary Rodham Clinton her use of her own personal server for the dispersal of departmental and top secret emails is astounding Advanced knowledge of a terrorist attack is one thing however it remains a quagmire when both the secretary of state as well as the president concoct lies to trick and fool the American people The crucial notion of the system of checks and balances on each branch of government is lost without US Constitutional oversight Therefore when one finds that the Internal Revenue Service or a former director of

the FBI is found operating for another person's charitable foundation who just so happens to be running for the Office of the President is disastrous America is not unlike any other nation on earth however when people are given the power to live above the law in a rule of law established and guaranteed in a nation that is when someone needs to write a book about the discovery

Creating Conservatism Michael J. Lee, 2014-08-01 Creating Conservatism charts the vital role of canonical post World War II 1945-1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution The Road to Serfdom Ideas Have Consequences Witness The Conservative Mind God and Man at Yale The Conscience of a Conservative and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars Creating Conservatism generates original insights about the struggle over what it means to think and speak conservatively in America

Getting America Right Edwin J. Feulner, Doug Wilson, 2007 This wake up call implores all citizens to fight for the conservative principles and values that made America great but that most political leaders including Republicans are abandoning

Politics without Stories David Ricci, 2016-08-19 Liberal candidates scholars and activists mainly promote pragmatism rather than large and powerful narratives which may be called alpha stories for their commanding presence over time Alternatively conservative counterparts to such liberals tend to promote their policy preferences in alpha stories praising effective markets excellent traditions and limited government In this face off liberals represent a post Enlightenment world where many modern people following Max Weber are disenchanted while many conservatives echoing Edmund Burke cherish stories borrowed from the past Politics without Stories describes this storytelling gap as an electoral disadvantage for liberals because their campaigning lacks and will continue to lack the inspiration and shared commitments that great long term stories can provide Therefore Ricci argues that for tactical purposes liberals should concede their post Enlightenment skepticism and rally around short term stories designed to frame in political campaigns immediate situations which they regard as intolerable These may help liberals win elections and influence the course of modern life
