Dying To Know You Proof Of God In The Near Death Experience:

Dying to Know You P. M. H. Atwater, 2014 What has been missing from my work from everyone else's work from personal stories from those who interpret personal stories from experts in religion and spirituality from the news media the scientists the grief stricken and the born again is the voice of the collective inside what we all seek to describe What lies at the heart of near death experiences A God that in ways beyond description smiles at you Not the God of holy writ but a Sourceplace an all encompassing Oneness Allness that as It breathes moves skin and bark and wings and stars and babes and rivers and comets and dreams and faces as well as the mustard on your hotdog The book you have before you releases that collective voice the sum of millions of people worldwide who speak as one It is nothing less than the proof that everyone on planet Earth in their own heart seeks to have that God exists

The After Death Chronicles Annie Mattingley, 2017-01-01 This is a book about ordinary people plumbers artists and accountants bakers and beauticians teachers and lawyers who have been able to receive communication from loved ones who have died Included here are accounts from over 80 people across the country who have had contact with the dead through the diaphanous veil that separates them from the living The book begins with the story of Annie's dead daughter coming to her in the early morning hours of each day The communication was so transformative that she began to share her experience with others Much to her surprise she discovered that after death communication is much more common than is normally assumed and she began to connect with other folks across the country who had similar experiences Each of the ten chapters is organized around a specific kind of after death communication Included here are chapters on dreams verbatim conversations and synchronicity through nature and various other physical manifestations descriptions of the results of these occurrences and advice on how to open up to after death communication This book inspires in the reader reassurance courage healing and a sense of wonder I am convinced the time is ripe for people to recognize the blessing of how frequently our dead beloveds return to reassure us to help us with our grief to advise us to confirm the reality that consciousness continues beyond the grave and to remind us that there is much more to death than the physical cessation of breath and pulse from the Introduction Annie Mattingley is the author of a wonderful new book I recommend highly called **The After Death Chronicles** Her work offers a collection of different types of personal accounts from people who have experienced convincing communication of one kind or another with deceased loved ones It is a terrific contribution to the growing body of increasingly credible evidence that our consciousness does indeed continue after death Raymond Moody MD PhD Author of *Life After Life* This book is a real treasure one that will surely bring comfort and reassurance to those who are grieving the loss of a loved one those facing terminal illness those seeking greater spiritual insight and people everywhere who yearn for more insight about the transcendent meaning of death The after death encounters Annie Mattingley shares with us in her delightful book are powerful teachers each one They instruct that while we are indeed mortal because our physical bodies die there is another aspect of our being which is immortal a surviving
