E T H Hoffmann Gesamtausgabe E T Musikalische:

Music and Literature in German Romanticism Siobhán Donovan, Robin Elliott, 2004 During the Romantic era many in Germany believed music to be the highest art form representing the quintessence of Romanticism and able to express what could not be expressed in words This book studies the work of composers during this period and examines the cross over between music and literature The New Shudder Christian Kämpf, 2024-09-16 It is a new shudder but not an old fear Jean Paul's sentence contains an aesthetic of the fantastic in nuce It is based not least on the philosophy of Friedrich Heinrich Jacobi and aims at the essence of Romanticism In addition to works by Mozart Beethoven Schumann and Wagner the Romantic magic opera by Spohr Weber and Marschner are placed in the centre of interest against this background as well as the music aesthetic discourse accompanying them which was led by Tieck Hoffmann and Horn A B Marx Brendel and Pohl are analysed Contrary to the tradition of musicological research which if not taboo at least trivialised the fantastic Kämpf arrives at a new understanding of musical Romanticism according to which it does not lose its affiliation with modernity and its impact on the present because of the fantastic but only gains it **Historical Dictionary of Romantic Music** John Michael Cooper, 2024-02-12 Library Journal praises the book as an excellent one volume ready reference resource for students researchers and others interested in music history Historical Dictionary of Romantic Music Second Edition covers the persons ideas practices and works that made up the worlds of Western music during the long 19th century ca 1780 1918 It's the first book to recognize that Romantic music was very nearly a global phenomenon It includes more women more Black musicians and other musicians of color and more exponents of musical Romanticism from Central and South America as well as Central and Eastern Europe than any other single volume study of Romantic music thus challenging the conventional hegemony of musical Romanticisms by men and by Western European nations This book includes entries on topics including anti-Semitism sexism and racism that were pervasive and defining to the worlds of musical Romanticism but are rarely addressed in general studies of that subject It includes Romantic musicians who were not primarily composers as well as topics such as the Haitian Revolution spirituals and ragtime that were more important for music in the long 19th century than is generally acknowledged The result is an expansive inclusive diverse and more richly textured portrayal of Romantic music than is elsewhere available Historical Dictionary of Romantic Music Second Edition contains a chronology an introduction an extensive bibliography and a dictionary section with more than 600 cross referenced entries on traditions famous pieces persons places technical terms and institutions of Romantic music This book is an excellent resource for students researchers and anyone wanting to know more about Romantic music *E.T.A. Hoffmanns musikalische anschauungen* Erwin Kroll, 1909 **Beethoven in the Age of Schiller, Goethe, and Kant** Hans-Joachim Hinrichsen, 2024-12-15 Beethoven wrote music for times that were changing His musical aesthetics played an active part in

the exchange of thought that shaped the revolutionary culture of his lifetime He put aesthetic expectations to the test and we still hear his message today In Beethoven in the Age of Schiller Goethe and Kant Music for Modern Times Hans Joachim Hinrichsen explores twelve themes that reflect Beethoven s compositional development and thought The result is a fascinating new portrait of the composer and his music and a panorama of the world of thought norms and values that he navigated Here we discover insight into Beethoven s use of literature his aspirations for purely instrumental music and how he transformed contemplation into aesthetic expression We learn not only how his contemporaries misunderstood him but also how those in the know did get his message Was Beethoven philosophical and poetic Are his last compositions a critique of pure music are they transcendental Hinrichsen argues that we must get beyond our stereotypes of Beethoven if we want to truly understand him Beihefte zur Zeitschrift für angewandte Psychologie und psychologische Sammelforschung William Stern, Otto Lipmann, 1911
