Summer Math Practice

WHAT You want us to do NOT We...in the SUMMER

In the past, students at Farnsley have participated in a summer reading program to ensure they retain the skills they have learned over the summer.

Through that program, the students have demonstrated how important it is to read and write throughout the summer. We have now widened the focus to ensure that students also retain previously learned math skills.

The students will be given math packets to complete over the course of the summer. These packets have been designed to review topics that were taught to them this past school year that teachers have identified as crucial for success in the next grade level. For optimal results, it is highly recommended that they complete a portion of the packet each week. This will ensure that skills are being reinforced weekly and that the students do not become overwhelmed.

You are also expected to know all of your multiplication facts when you come to Farnsley. Please make sure to practice these over the summer. Homework competitions will start early this year ☺

Summer Brain Drain

Did you know...

Research has found that on average, ALL students lose approximately 2.6 months of grade level equivalency in math skills over the summer months. This is almost one-third of a typical school year!

Requirements:

- The packet will count for the students first test grade in their math class.
- Should include labels, units, appropriate math vocabulary, etc.
- All students entering grades 6-8 are expected to complete a summer math packet.
- All work needs to be shown with final answers listed on the answer sheet. Failure to do this will result in a drop of a letter grade on the assignment.
- **Due on Friday, August 30th**

If you lose your packet, please go to www.farnsley.us to print another one.

Get off of those video games!

There are better ways to spend 20 minutes a day!

One of the goals of every Farnsley student is to be FLUENT with their multiplication facts. There are lots of cool websites to help you practice these over the summer. Here are a few:

<http://www.mathplay.com>
www.hoodamath.com
www.coolmath.com
<http://www.mathplayground.com/>
<http://www.multiplication.com/games>
<http://www.fun4thebrain.com/mult.html>
<http://www.funbrain.com>

Parents can also sign their students up for a free www.xtramath.com account to practice skills. If your student completes at least 15 sessions over the summer, print out a progress report and turn it in for a free jojo or pencil!

You can also continue to access SUCCESSMAKER if you have a username/password by going to www.jalpy.net and clicking on Students and then the Successmaker logs.
