Farthing On International Shipping 3rd Edition:

Farthing on International Shipping Bruce Farthing, Mark Brownrigg, 1997 An introduction to the world of shipping A clear concise but comprehensive overview of how the modern industry operates covering everything from the basic principles of the law of the sea to the institutions and policies that dictate how business is conducted **Farthing on International**

Shipping Proshanto K. Mukherjee, Mark Brownrigg, 2013-06-12 The book provides an introduction to shipping in all its aspects It is a valuable source of information for students of traditional maritime law as well as for those who seek to understand maritime and shipping services on a global scale The text includes information and analytical content on national and international practices in shipping including the age old dichotomy between freedom in international shipping and the persistent demands of states to control specific maritime areas as well as the tension between on the one hand the desire on the part of sovereign states to regulate and protect their shipping interests and on the other the abiding concern and unquestioned right of the international community to regulate the global shipping industry effectively in order to ensure maritime safety protection of the environment and fair competition The Liberalization of Maritime Transport Services

Benjamin Parameswaran, 2012-12-06 Despite multiple efforts on the bilateral regional and multilateral level to create uniform or at least harmonized rules for commercial operations and practices in the maritime transport sector and to liberalize maritime transport services by tearing down the barriers that exist in that sector there is until today no global regime regulating or rather deregulating the supply of maritime transport services and ensuring open markets In this situation private economic actors are confronted with substantial legal uncertainty This book provides a detailed analysis of the history of maritime transport services in the Uruguay and post Uruguay Round negotiations and the role of the sector in the ongoing Doha Round talks where Member States have the opportunity to work towards a global regime ensuring the progressive liberalization of the sector The reader will be confronted with an extensive overview of the role of maritime transport services in the WTO GATS framework a topic basically uncovered in the literature so far *Maritime Work Law*

Fundamentals: Responsible Shipowners, Reliable Seafarers Iliana Christodoulou-Varotsi, Dmitry A. Pentsov, 2007-10-31 The importance of international maritime labour law both as a component of international maritime law and in socio political and economic terms has been recognised by the IMO International Maritime Law Institute for a number of years Indeed the Institute has annually organised a course on maritime labour law with the participation of inter alia the International Maritime Organization the International Labour Organization the International Transport Workers Federation and the German Shipowners Association It was therefore a great pleasure when the authors invited me to introduce their forthcoming monograph on Maritime Work Law Fundamentals Responsible Shipowners Reliable Seafarers As the title suggests a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders Institutionally the effort to achieve this balance dates back a number of decades with its genesis mainly

found in the work of the International Labour Organization It has to be said that whilst this effort achieved great progress it has led to a haphazard plethora of legal instruments *New Directions in Norwegian Maritime History* Lewis R. Fischer, Even Lange, 2011 This book is a wide reaching study of Norwegian maritime history and developments within the discipline It brings together the research efforts of a University of Oslo project aiming to further understand Norwegian shipping history between 1814 and 2014 and the work of a new generation of maritime historians Structured into three sections global integration political issues and success and failure the volume covers a broad range of maritime topics that have influenced both Norwegian economic development and Norwegian cultural identity Through analysis it discovers that in the last few decades Norwegian shipping has been plagued by multiple troubles whilst simultaneously becoming less crucial to the Norwegian economy in favour of offshore petroleum production However it reiterates the historical importance of shipping to the economic development of Norway and asserts that historians have begun to treat it as the centre from which other industries grew *Current Publications in Legal and Related Fields*, 1998 **International Shipping** Bruce Farthing, 1993 **EC Shipping Law** Vincent J. G. Power, 1992 **Bibliography of Nautical Books** Alan Obin, 2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000 International Legal Books in Print, 1990-1991 Bowker-Saur, 1990 Multimodal Transport Anthony Diamond, 1997 Extensive capital investment by companies involved in multimodal transport industry has led to a more efficient industry in which customers are better served The legal infrastructure has kept pace with neither technological development nor changes in functions of participants and therefore there are numerous legal problems This text covers the major legal questions encountered by participants in the multimodal transport industry It offers advice on how to prevent these questions arising It devotes four chapters to the day to day problems of cargo interests forwarders operators and cargo handling operators seeking resource for claims The book provides plans of action designed to eliminate the possibility of legal disputes and claims arising in each of the above areas It also identifies the deficiencies of the most recent international convention covering multimodal transport and provides concise practical replies to each of the following questions which liability scheme applies what are the financial limits of liability and what is the time period within which claims must be brought *Subject Guide to Books in Print*, 1993 **Shipping Conferences: The Legal Framework and Operation of Shipping Conferences** Amos Herman, 1983 **Bowker's Law Books and Serials in Print**, 1995 **The British National Bibliography** Arthur James Wells, 1996 Annuaire du droit de la mer, 1997 **The Bookseller**, 1875 **International Books in Print**, 1987 **English Mechanic and Mirror of Science and Art**, 1922 Whitaker's Book List, 1988
