Fat Rights Dilemmas Of Difference And Personhood:

Fat Rights Anna Kirkland, 2008-03-01 Author Interview on The Brian Lehrer Show America is a weight obsessed nation Over the last decade there s been an explosion of concern in the U S about people getting fatter Plaintiffs are now filing lawsuits arguing that discrimination against fat people should be illegal Fat Rights asks the first provocative questions that need to be raised about adding weight to lists of currently protected traits like race gender and disability Is body fat an indicator of a character flaw or of incompetence on the job Does it pose risks or costs to employers they should be allowed to evade Or is it simply a stigmatized difference that does not bear on the ability to perform most jobs Could we imagine fatness as part of workplace diversity Considering fat discrimination prompts us to rethink these basic questions that lawyers judges and ordinary citizens ask before a new trait begins to look suitable for antidiscrimination coverage Fat Rights draws on little known legal cases brought by fat citizens as well as significant lawsuits over other forms of bodily difference such as transgenderism asking why the boundaries of our antidiscrimination laws rest where they do Fatness argues Kirkland is both similar to and provocatively different from other protected traits raising long standing dilemmas in antidiscrimination law into stark relief Though options for defending difference may be scarce Kirkland evaluates the available strategies and proposes new ways of navigating this new legal question Fat Rights enters the fray of the obesity debate from a new perspective our inherited civil rights tradition The scope is broad covering much more than just weight discrimination and drawing the reader into the larger context of antidiscrimination protections and how they can be justified for a new group

Legislating Fatness Stephanie von Liebenstein, 2022-07-28 Discrimination based on body weight is an underestimated and widespread problem There is not a single national law worldwide that prohibits weight discrimination but quite a number of laws and policies that reinforce or at least reflect the existing socially ubiquitous weight stigma This volume focuses on where and how fatness and law intersect discussing current anti discrimination protections related to fatness the ongoing debate around the introduction of new anti discrimination categories national and international principles that seem to argue against the introduction of legal protection of fatness the question whether fatness should be considered a disability and weight stigma in legal practice Starting from a fat studies perspective this book also considers the legal implications of anti discrimination legislation for fatness through an intersectional lens noting how fatness often overlaps with other marginalized identities including race and ethnicity gender and socioeconomic status This book will be of interest to both professional and lay audiences providing an introduction into the legal aspects of weightism as well as offering solutions for legislative practice It will be an invaluable resource for everyone who would like to be more weight sensitive in their legal work The chapters in this book were originally published as a special issue of *Fat Studies An Interdisciplinary Journal of Body Weight and Society* *Being Fat* Jenny Ellison, 2020-03-26 It is okay to be fat This is the basic premise of fat activism a social movement that has existed in Canada since the early 1970s This book focuses on the earliest strands of the Canadian

movement which emerged around 1977 and ended around 1997 with the emergence of defiant performance artists Pretty Porky and Pissed Off This twenty year window loosely correlates with the rise of second wave feminist organizing and thinking in the country Fat activists were wrestling with issues other feminists of the era were debating femininity sexuality and health While united by the idea that it is okay to be fat the movement has taken many different forms Fat activism and the movement encompassed a variety of activities It included groups that held regular meetings and published newsletters organized events and elected an executive Being Fat explores activities like fashion design self help groups plus size modelling and dance under the umbrella of fat activism undertaken in the name of empowering fat women Together these activities show that self identified fat women took up feminist ideas of liberation and applied them to their lives Their personal experiences became the basis of a powerful movement to challenge beauty and bodily norms *Permit But Discourage* W. A. Bogart, 2010-11-03 *Permit But Discourage* Regulating Excessive Consumption by W A Bogart is the first book to focus on problem gambling and its regulation and to situate this analysis in the larger context of regulating excessive consumption This work analyzes the effectiveness of law in controlling excessive consumption It engages theoretical discussions concerning the effectiveness of legal intervention especially regarding normativity the relationship between law and norms It also argues that various forms of over consumption alcohol smoking non nutritious eating can be more effectively controlled by altering norms regarding them so that such excesses can be suppressed to a greater extent Regulatory efforts are aimed not at forbidding consumption but at suppressing excessive aspects In the case of tobacco this means zero consumption since there is no safe level of smoking In contrast in terms of alcohol this means encouraging consumption of only moderate amounts Addictive drugs are generally prohibited and their use is criminalized But there is a significant measure of public opinion that prohibition does more harm than good that permit but discourage would produce better results The battle against obesity a contested concept focuses on encouraging eating nutritious foods and being physically active The book then focuses on one form of consumption that is associated with major social issues problem gambling Regulation to date has been mostly on ensuring honesty regarding the various games and in promoting revenue enhancement for owners often governments However in the face of the mounting evidence regarding the damage caused by those with impaired control there are increasing calls for the regulatory frameworks to make harm minimization and related concepts a priority Harm minimization brings permit but discourage to the fore in terms of gambling and problem gambling *Permit But Discourage* examines a variety of legal interventions that could be used to address problem gambling

European Union Non-Discrimination Law and Intersectionality Anna Lawson, 2016-07-22 This book contributes to a critical reflection of current legislative and jurisprudential developments in Non Discrimination Law focusing on the European Union The book is focused on intersectionality between gender race and disability and the question of whether and to what extent this intersection can be adequately addressed in EU law The discussion rests on two basic assumptions First

the multiplication of discrimination grounds in EU law and other legal regimes should not result in a dilution of the demands of equality law Accordingly the book focuses on the three key grounds race gender and disability These constitute nodes around which other discrimination grounds can be grouped Second any multi ground non discrimination law framework needs to engage with the question of discrimination on several grounds This book provides a critical evaluation of some of the problems presented by such intersectionality and an opportunity to explore the issues in depth This collection offers some new proposals relating to the regrouping of identity categories and to the general approach to socio legal research in the field It also contains a comparative section which expands on practical experiences with intersectionality and law and a section dedicated to juridical responses to intersectionality The book will be a valuable resource for researchers academics and those working in the area of EU non discrimination law and policy
