**Gender and Education in England since 1770** Jane Martin, 2022-01-02 This book takes a novel approach to the topic combining biographical approaches and local history a synthesis of sociological and historical literature with new research to address a variety of themes and provide a comprehensive rounded history demonstrating the entanglement of educational experience and the influence of different modes of discrimination and prejudice Using the lens of gender Jane Martin reassesses the gendered nature of the modern history of education and provides an overview of intertwined aspects of education society politics and power Its organisation is user friendly providing accessible information with regard to chronologies of legislation and key events to reflect constancy and change whilst mapping the larger political economic social and cultural contexts making it ideal for use as a textbook or a resource for teachers and students

**Radical Happiness** Lynne Segal, 2018-11-13 A passionate call to rediscover the political and emotional joy that emerges when we share our lives In an era of increasing individualism we have never been more isolated and dispirited A paradox confronts us While research and technology find new ways to measure contentment and popular culture encourages us to think of happiness as a human right misery is abundant Segal believes we have lost the art of radical happiness the liberation that comes with transformative collective joy She argues that instead of obsessing about our own well being we should seek fulfilment in the lives of others Examining her own experience in the women s movement Segal looks at the relationship between love and sex and the scope for utopian thinking as a means to a better future She also shows how the gaps in care that come from the diminishing role of the welfare state must be replaced by alternative ways of living together and looking after one another In this brilliant and provocative book Segal proposes that the power of true happiness can only be discovered collectively
