

Dear Parents,

As the school year comes to a close I want to take a moment to say thanks. Thank you for sharing your pride and joy with me. I have done my best to keep your child safe and happy this school year. I have enjoyed all the hugs, smiles, and kind words your child has shared with me. Thank you for supporting all of my efforts. Thank you for getting up early to make sure your child made it to school on time, for taking the time to read and sign all the notes and forms that have come home, and for reading with your child, helping them with their math homework and helping them learn. And last but not least, thank you for loving your child.

Sincerely,  
Miss Dewey

National Parent-teacher Magazine ,1917      **My Teacher Is Gay** Peter Van Maaren,2011-02-21 How does a teacher especially a gay teacher respond to the gradual increase in ethnic minorities in the student body My Teacher is Gay tells the story of Peter van Maaren who recounts his experiences at a community college in Amsterdam as the school undergoes significant changes His upbeat and sometimes disconcerting stories involve not only his interactions with students but also his fellow faculty members and school administration As it turned out thanks to his openness and sense of humor his sexual orientation was not an issue for most of the students and their parents It was often much more difficult to convince his colleagues and the administrators that a gay teacher does not automatically pose a threat to the school His goal was to show that cultivating mutual understanding respect and tolerance can actually make a positive contribution to the learning atmosphere By being open and honest about his identity he achieved far more with his students than he did when the school administration ordered him to keep quiet about his orientation and try to ignore any remarks about it The Gay Krant editorial staff in Best has received a growing number of complaints about intolerance in education Students today are afraid to be open about their feelings and teachers report being forced back in the closet In response to this alarming trend we publish interviews in the paper Many are anonymous because the subjects are so afraid to go public Consequently I am thrilled that Peter van Maaren is the first to come forward to share his story A highly worth reading and at times moving account Now we can only hope that politicians policymakers and other involved parties will learn something from it Henk Krol Gay Krant editor in chief Education is not a matter of filling a vessel Education is certainly not a budgeting exercise for administrators Education is about lighting a fire of wisdom and humanity Let this book by Peter van Maaren offer inspiration to do just that Jan Marijnissen floor leader of the Dutch Socialist Party      National Parent-teacher ,1927      *Teacher Education for Inclusion* Chris Forlin,2010-06-10 How teachers might best be prepared to work in schools with an increasingly diverse pupil population is of concern to educational academics professionals and governments around the world Changes that have taken place in legislation and practice often fail to taken into account how practitioners can ensure that all children and young people are able to achieve The focus of this international text is on innovative practices for preparing teachers to work in inclusive classrooms and schools Drawing on both pre and in service training methods the expert contributors to this book follow three major themes social and political challenges regarding teacher education providing an historical perspective on the training of teachers tensions in preparing teachers for inclusion cultural issues the relationship between educational funding and practices and collaborative measures to support a whole school approach innovative approaches in pre service teacher preparation discussing a range of innovative models and approaches used in pre service teacher education courses engaging professional development for inservice teachers reviewing a range of approaches employed to engage working teachers and help them establish curricula and pedagogy that meets the needs of all students in their classes Each chapter
