Farhad Malekian:

Allegation by Political Laundering Farhad Malekian, 2018-10-29 The Julian Assange case reminds us of the well known Scandinavian narrative Keiserens Nye klæder The Emperor's New Clothes Once upon a time two tailors weaved new clothes for an emperor They claimed they used a magic fabric that apparently less talented people could not see In reality they wove nothing they had no loom at all However they pretended with gestures of the hand that the loom was active No one wanted to be the less gifted person so everyone lied and confirmed the clothes were progressing The emperor finally put on the magic clothes and marched naked around the capital city with the members of his entourage holding the magic train Unexpectedly a guiltless little child shouted out with a confident voice Men har jo ikke noget paa But he doesn't have anything on The emperor knew the child was right but decided he must bear it until the procession was over Human rights or international criminal justice is not simply hocus pocus but it seems to be so in the case of Assange who has enlightened the world population about the hidden criminal political laundering of the big powerful states This book explores the propensity towards evil in the nature of collective entities based on political and economic gains against the international community as a whole It underlines that immoral criminal political laundering is the basic reason for money laundries throughout the globe

Corpus Juris of Islamic International Criminal Justice Farhad Malekian, 2018-09-30 This pioneering scholarly oeuvre evaluates the major comparative philosophy of Islamic international criminal justice It represents an in depth analysis of the necessities of creating an Islamic international criminal court its possible jurisdiction proceedings judgments and sanctions It implies a court functioning under the legal personality of the International Criminal Court with comparative international criminal lawyers with basic knowledge of Shariah contributing to the prevention of crimes and impunity at an international level The morality and philosophy of Islamic justice are highly relevant with reference to the atrocities committed explicitly or implicitly under the pretext of Islamic rules by superiors groups and governments The volume focuses on substantive criminal law and three methods of the criminal procedure namely the inquisitorial adversarial and acquisitorial The first two constitute the corpus juris of civil and common law systems The third term presents a hybrid of the first two methods The intention is to enhance the scope of each method of the criminal procedure comprehensively The volume examines their variations and effects on a shared system of international criminal justice The inherence of comparable norms in the foundation of Islamic and international criminal law affirms their efficiency in the implementation of the essence of the complementarity principle This book will appeal to readers who are interested in comparative criminal law international criminal justice and Shariah criminal law It is recommended for course literature

Jurisprudence of International Criminal Justice Farhad Malekian, 2014-06-30 Introduction written by Professor Benjamin B Ferencz This challenging volume examines the jurisprudence of international criminal justice from various points of view The philosophy of justice may vary from time to time and from nation to nation depending on prevailing attitudes towards the substantive rules which deal in one way or

another with cultural norms In the national and international area the principles of criminal justice have a key role in examining the scope of the most serious violations of international criminal law It is on the basis of appropriate judgment that these principles may be accumulated and achieved for the future conduct of man This volume therefore examines the principles and dimensions of the constitutions of various international criminal tribunals courts with particular focus on the Statute of the International Criminal Court ICC As such the volume offers a comprehensive evaluation of the rule of law and criminal justice and their legal tasks within the complementarity system of international criminal jurisprudence The volume emphasises the prosecution and punishment of all those who may successfully escape from the proceedings of national and international criminal courts because of their juridical political religious economic or military power It demands the implementation of international law of jus cogens The provisions of the Statute should not be deduced in contradiction to the norms from which no derogation is possible such as prohibitions governing crimes against humanity torture apartheid rape war crimes genocide and aggression If the value of the task of the Court is to be realised by the majority of states in the international community the cycle of impunity has to be abolished in the case of all states including the five permanent members of the Security Council of the United Nations

The Mirage of International Criminal Law Farhad Malekian, 2018-10-01 This book explores from various perspectives Kant's codex of the categorical imperative and the supreme principle of morality in juxtaposition with the monopolisation of the rules of international criminal law Kant's reference to the term propensity to evil in human nature is a much more serious iniquity universally in the nature of the Security Council than the concepts of a mens rea and actus reus in criminal law His decisive warning foreshadows that the inclinations towards self interest self love and intent in collective mens rea within the resolutions of the Security Council prevent states from striving towards the supreme maxim of a genuine international moral worth The idea of international criminal law is thus viewed as a mirage Essentially certain rules of the United Nations Charter the system of international criminal justice human rights law and humanitarian law like a fata morgana are crucial if unattainable The permanent members of the Security Council are deceiving the world by propagating a variety of excuses with the core objective of economic gain This book will be of interest to anyone enthusiastic about positive law the nature of criminal justice classical moral philosophy politics and economics

Classical Morality in International Peremptory Criminal Law Farhad Malekian, 2018-10-09 This book begins with the belief that if a moral principle cannot be identified in the language of the law if law is not underpinned by a moral understanding of the norm if the moral accusation is not attached to the violations of certain indispensable norms of the law then we are violating the peremptory character of the universality of the moral law The book vicariously objects to any dispute for the advantage of the impunity of those who have cruelly contravened the corpus juris of international peremptory criminal law What justifies the law in recognizing certain principles as peremptory derives from the highest genetic merit for the international human community as a whole Here the term peremptory for

classical morality is seen to encompass love for the spirit of truth for the strength of equality of arms and for the reaffirmation of the value of the essence of man where its infringements violate the indispensable universal rights of nature This is regardless of whether its perpetrators are Western or non Western

Conundrums of Humanity Jonathan Power, 2007 Sixty years since the end of World War II is two generations And two generations is long enough to measure whether there has been a substantial change in direction in how mankind orders its affairs It is clear that it has Not just in matters of war and peace there has not been a Third World War but in its attitude to poverty economic progress human rights its habitat and its relationship to the other sex and its offspring In all there have been great strides forward that at the time of the ending of the war seemed barely conceivable Conundrums of Humanity poses eleven questions for our future progress ranging from Can we diminish War to How far and fast can we push forward the frontiers of Human Rights to Will China dominate the century The answers to these questions the author believes growing out of his long experience as a foreign correspondent and columnist for the International Herald Tribune are largely positive ones despite the hurdles yet to be overcome They all depend for fruition partly on building on the important work already accomplished partly on creating a more benign and positive atmosphere in the world order and partly on demonstrating how the world can be even better in the future and thus giving the world's peoples a sense of forward momentum

Condemning the Use of Force in the Gulf Crisis Farhad Malekian, 1994 Gravity of Wisdom in International Criminal Law Farhad Malekian, 2021 In this comprehensive work Malekian introduces the importance of the noble principle of the population of wisdom which relates to the far reaching foundation of the systems of international human rights law and international criminal justice This principle is not dependent upon the norm of inequality nor upon the threat of use of force and the killing of millions nor does it seek to destroy the truth in order to exploit nations Malekian trusts that an equitable system of international law based in wisdom can provide a forum for a deeper philosophical understanding of the value of our perception which struggles to establish quality standards rather than an exorbitant number of human rights provisions If international human rights law and international criminal law do not encounter the high moral values as their virtue they cannot make ethically wise decisions or attain long term legal efficiency We may successfully increase the significance of legal disciplines such as human rights law the law of the United Nations and the moral capacity of the norm of perception through the magnificent power of wisdom This book discusses original theories addressing serious questions concerning the ethical normative and moral values of human essence on a variety of issues in order to decrease violations and increase perceptions of true humanization The musings on the distinctive values of this book are presented to those who are not afraid to honor the truth Read the book with a vigilant heart and scrutinize it with an open minded attitude **The Global**

Community Yearbook of International Law and Jurisprudence 2014 (Volume 1) Giuliana Ziccardi Capaldo, 2015-09-15 The 2014 edition of The Global Community Yearbook both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law This edition includes expert introductory essays by prominent scholars in the realm of international law on topics as diverse and current as the intervention of the United States and coalition partners in territories under the control of the Islamic State of Iraq and the Levant ISIL to the weak area in the institutional and normative framework of the Revised Treaty of Chaguaramas

Judgments of Love in Criminal Justice Farhad Malekian, 2017-03-31 This volume is a new chapter in the future history

of law Its general perspective could not be more original and its critical ethical edge on the state of international law could not be timelier It explores a compassionate philosophical approach to the genuine substance of law criminal procedure international criminal law and international criminal justice It divides law into three interrelated disciplines i e legality morality and love The norm love is derived from human reason for man s advancement and the securing of natural law It is more than a mere mandatory norm Its goal is to generate a normative and positive powerful result therefore avoiding any impurity that may exist in the application of other norms because of political or juridical pressures a one eyed justice The norm love also renders justice with the principles of legal accountability transparency and the high moral authentic values of humanity The notion of justice cannot be trusted in the absence of the norm love The volume indicates the conditions of its efficiency by proving the reasons for its existence in the context of fairness objectivity and concern for all individuals and entities The concept of the norm love should be the core academic corpus for lecturing law in all faculties of law It is simply the enlightenment of the 21st century A lawyer with requisite knowledge and skill is not a lawyer if he cannot understand that the law does not need a lawyer with ethical competence in its provisions for income purposes but one with knowledge of its essence for the advanced morality of justice and the sheer essence of love for justice

Farhad Malekian Introduction

In today's digital age, the availability of Farhad Malekian books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Farhad Malekian books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Farhad Malekian books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Farhad Malekian versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Farhad Malekian books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Farhad Malekian books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Farhad Malekian books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library.

lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Farhad Malekian books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Farhad Malekian books and manuals for download and embark on your journey of knowledge?
