Fatal Purity Ruth Scurr,2006-04-18 Publisher Description **Carlyle's The French Revolution** Ruth

Scurr,2010-04-29 In 1837 Thomas Carlyle published his work *The French Revolution A History* and overnight became a celebrity The work was filled with a passionate intensity hitherto unknown in historical writing In a politically charged Europe filled with fears and hopes of revolution Carlyle s account of the motivations and urges that inspired the events in France became powerfully relevant Carlyle s style emphasized this continually pointing to the urgency of action often using the present tense For him chaotic events demanded heroes to take control over the competing forces erupting within society In Carlyle s view only dynamic individuals could master events and direct these energies effectively As soon as ideological formulas replaced heroes and human action society became dehumanized As Ruth Scurr shows in her masterly introduction and through the texts she has selected from Carlyle s masterpiece of historical writing *The French Revolution* needs still to be read for its relevance and as one of the finest examples of English prose writing ever [In Praise of Failure](#) Costica

Bradatan,2023-01-03 Success is all very well but failure teaches us what is most important humility Costica Bradatan tells the stories of four thinkers who for all their external success courted failure throughout their years From Simone Weil to Seneca and Gandhi the greatest of us made meaningful lives by grasping the epiphanies of failure *Leaders* General Stanley McChrystal,Jeff Eggers,Jay Mangone,2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of *Team of Teams* profiles thirteen of history s great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch s *Lives* as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career

and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation *Architecture or Revolution* Nadir Lahiji,2020-09-22 By linking building theory to the emancipatory project of critique advanced by radical thinkers in our time this work investigates the key conceptual and historical elements that culminate in an emancipatory theory of building entitled Toward a philosophy of shelter Taking Marx as its only resource this work proceeds with the conviction that our era is contemporaneous to Marx s historical era This means not judging the validity of Marx from the perspective of the historical situation but rather demonstrating the validity of a Marxian perspective for a singular historical situation as ours This work will therefore translate this perspective into seeing the situation of architecture through the eyes of Marx All those concerned with the predicament in our current condition in which architecture must play a major social role in upholding the universal value of what Alain Badiou calls generic humanity will take an interest in this work In particular architects critics scholars and students inside the field of architecture who would be seeking the application of this universal value to a new theory of building will be a welcoming audience for this work **Robespierre and the French Revolution** Charles Franklin Warwick,1909 **The Making of the West, Volume B: 1340-1830** Lynn Hunt,Thomas R.
