Dystopia in Arabic Speculative Fiction
Wessam Elmeligi, 2023-08-29
Dystopia in Arabic Speculative Fiction: A Poetics of Distress unpacks the nuanced Arabic contribution to speculative fiction. Part of a larger project by Elmeligi to formulate a poetics of literary theory to read Arabic literature, this book examines Arabic dystopian fiction from the lens of social causes of psychological distress. The selected novels combine works by authors already established in studies by Western scholars and many that have not been translated before or have not received enough scholarly attention yet. The novels represent an array of Arab countries including Algerian, Egyptian, Jordanian, Kuwaiti, Mauritanian, Syrian, and Tunisian authors. It also highlights the contribution of women authors to Arabic speculative fiction. This book enriches the conversation about what is quite possibly a significant speculative fiction turn in the Arabic novel, as well as provides a new theoretical approach to read such complex and innovative literature.

Science Fiction and Indian Women Writers
Urvashi Kuhad, 2021-07-29

Science fiction as a literature of fantasy goes beyond the mundane to ask the question: what if the world were different from the way it is? It often challenges the real, builds on imagination, places no limits on human capacities, and encourages readers to think outside their social and cultural conditioning. This book presents a systematic study of Indian women's science fiction. It offers a critical analysis of the works of four female Indian writers of science fiction: Rokeya Sakhawat Hossain, Manjula Padmanabhan, Priya Sarukkai Chabria, and Vandana Singh. The author considers not only the evolution of science fiction writing in India but also discusses the use of innovations and unique themes, including science fiction in different Indian languages, the literary, political, and educational activism of the women writers, and eco-feminism and the idea of cloning in writing, to argue that this genre could be viewed as a vibrant representation of freedom of expression and radical literature. This ground-breaking volume will be useful for scholars and researchers of English literature. It will also prove a very useful source for further studies into Indian literature, science and technology studies, women's and gender studies, comparative literature, and cultural studies.

When the Sleeper Wakes (A Dystopian Sci-Fi) H. G. Wells, 2023-12-17

In *When the Sleeper Wakes*, H. G. Wells crafts a chilling dystopian narrative that explores themes of power, societal structure, and technological advancement. Set in a future where a man awakens from a long sleep to find a world transformed by oppression and industrial tyranny, Wells employs a vivid, immersive prose style rich with detail and speculative insight. The novel serves as a precursor to many tropes in science fiction, blending social commentary with a deep philosophical inquiry into the human condition, provoking questions about progress and the nature of happiness in an ever-evolving world. H. G. Wells, often referred to as the father of science fiction, wrote this novel during the dawn of the 20th century, a time rife with rapid technological changes and class struggles. His personal experiences as a social reformer and advocate for change deeply informed his understanding of societal dynamics, shaping the narrative's exploration of utopia and dystopia as two sides of the same coin. His work reflects both a fascination with innovation and a critical eye toward its potential consequences. For readers seeking a thought-provoking exploration of future societal constructs and human resilience, *When the Sleeper Wakes* is essential reading. It not only entertains but also challenges us to reflect on our contemporary world and the paths we might take. Wells's prescient ideas continue to resonate, making this novel a timeless piece of speculative literature.

Gattaca's Genetic Apartheid Scenario Myriam Nickels, 2017-06-28 Seminar paper from the year 2016 in the subject English Language and Literature Studies Other grade 1 3 University of Koblenz Landau Anglistik language English abstract The new advances and tendencies in the application of genetic science evoke ethical social and legal concerns as the immense progress in genetics is a double edged sword On the one hand the completion of the Human Genome Project at the beginning of the 21st century and the recent progress in genetics come along with obvious benefits in genomic medicine such as better diagnosis of diseases and gene therapy However on the other hand the new genetics bring along worries that the new genetics could lead to a society that is less tolerant of disability and genetic diversity Moreover after successfully having intervened in the transformation of animals and plants to human s liking humans are now on the verge of manipulating the human genome so as to perfect the human species possibly since the necessary genetic technology is now available The movie Gattaca builds upon the scientific and technological advances in genetics in the late 20th century and displays a dystopian not too distant future In the portrayed future excessive genetic screening and embryo manipulation have brought about a rigidly hierarchical society grounded on genetic discrimination Undeniably there is an insurmountable social gap between these two classes Gattaca thoughtfully portrays the lives of different people trapped in these social categories and the special burdens they have to bear in such a society which is obsessed with genetic perfection A distinct two tiered society structure is the result of liberal eugenic practices and the unquestioned belief in genes being the determinants of an individual s life Niccol constructs a profoundly dystopian future which results from of the utopian quest to eradicate imperfections in society and genetically perfect humankind As Nicolas Pethes postulates science fiction possesses the possibility to prearrange real science and to picture outcomes that have not yet happened 177 and to articulate the current cultural image of science 169 Hence I read Gattaca as a genetic apartheid scenario to show how it comments on the advance in genetics in a critical way It is not possible to dismiss that the visions of the dystopian movie can be easily tied in with the contemporary genetic advances of our society and the hereby evoked ethical social and legal controversies and obstacles
