Irish Women Writers and the Modern Short Story

Elke D'hoker, 2016-07-28 This book traces the development of the modern short story in the hands of Irish women writers from the 1890s to the present George Egerton Somerville and Ross Elizabeth Bowen Mary Lavin Edna O'Brien Anne Enright and Claire Keegan are only some of the many Irish women writers who have made lasting contributions to the genre of the modern short story yet their achievements have often been marginalized in literary histories which typically define the Irish short story in terms of its oral heritage nationalist concerns rural realism and outsider hero Through a detailed investigation of the short fiction of fifteen prominent writers this study aims to open up this critical conceptualization of the Irish short story to the formal properties and thematic concerns women writers bring to the genre What stands out in thematic terms is an abiding interest in human relations whether of love the family or the larger community In formal terms this book traces the overall development of the Irish short story highlighting both the lines of influence that connect these writers and the specific use each individual author makes of the short story form

Moral Systems and the Evolution of Human Rights

Bruce K. Friesen, 2014-10-27 This volume offers a comprehensible account of the development and evolution of moral systems It seeks to answer the following questions If morals are eternal and unchanging why have the world's dominant religious moral

systems been around for no more than a mere six thousand of the two hundred thousand years of modern human existence What explains the many and varied moral systems across the globe today How can we account for the significant change in moral values in one place in less than 100 years time Using examples from classical civilizations the book demonstrates how increasing diversity compromises a moral system s ability to account for and integrate larger populations into a single social unit This environmental stress is not relieved until a broader more abstract moral system is adopted by a social system This new system provides a sense of belonging and purpose for more people motivating them to engage in prosocial or moral acts and refrain from socially disruptive selfish acts The current human rights paradigm is the world s first universal indigenous moral system Because moral systems can be expected to continue to evolve this book points to current boundaries of the human rights paradigm and where the next major moral revolution might emerge **Southern Exposure** ,1996
