**Drop by Drop** Morgan Llywelyn, 2018-06-26 Morgan Llywelyn gives readers a near-future apocalyptic thriller with her signature depth and intimacy of character. In *Drop by Drop*, the first in a new trilogy, global catastrophe occurs as all plastic mysteriously liquefies. All the small components that make many technologies possible—navigation systems, communications, medical equipment—fail. In Sycamore River, citizens find their lives disrupted as everything they've depended on melts around them, sometimes with fatal results. All they can rely upon is themselves. And this is only the beginning. Llywelyn blends her signature character-driven portrait of small-town life with the appeal of William Fortschen's *One Second After*. characteristics for either genres the novel has to be analysed accurately In order do so and find an answer to the main question I will point out and examine relevant passages in the text which will help classifying Wells work Therefore it is essential to first of all define both literary genres These definitions are to include the origin of the genre main characteristics as well as appropriate background information As already mentioned the definitions will be followed by an in depth analysis of significant text passages Finally my conclusion is intended to sum up the most important findings and aims to present a classification based on the analysis in the main part Imagined Spaces Katrina G.
