Field-Marshal Kesselring Andrew Sangster, 2015 Postwar analyses of Germany's last ever Field Marshal Albert Kesselring have tended to be sympathetic and even adulatory in their appraisals This book raises fundamental questions about their legitimacy and challenges the widely held belief that he was one of the greatest commanders to emerge from the last World War It illustrates that this reputation has been bolstered by the need to conceal the ineptitude and inexperience of Allied opposition Often seen as a benign and good natured patrician the study shows that he was deeply implicated in the Nazi

preparation for war he was guilty of serious war crimes and that he committed perjury to save himself at the expense of a junior general The book also highlights that the SS became a scapegoat for the whole Nazi regime that Kesselring became a pawn in Cold War politics which assisted his release from execution and prison that he survived the denazification process because it became a nonsense that those who hoped he would assume a leadership in postwar Germany were disappointed by his inability to accept the new Europe and that he died in ignominy The book is a re appraisal of Kesselring and demythologises many deeply held concepts of the period between 1930 and 1960 The Memoirs of Field-marshal Kesselring Albert Kesselring,1953 **The memoirs of field-marshal Kesserling** Albert Kesserling,1953 *Albert Kesselring* Pier Paolo Battistelli,2012-08-20 Albert Kesselring was the principal Axis commander in the Italian theatre confronting the Allies at Salerno Anzio and Cassino Although he is mostly remembered for his part in the campaign in Italy from 1943 to 1945 Generalfeldmarschall Albert Kesselring was also chief of staff of the Luftwaffe in 1936 37 playing a crucial role in the shaping of the service for the coming war As commander of Luftflotte 1 in Poland and Luftflotte 2 in France and the Low Countries he was responsible for supporting the armoured spearheads of the German Army as they undertook their Blitzkrieg campaigns With the Fall of France the Battle of Britain began and Luftlotte 2 was the main force in the air attack against the British air defences with Kesselring planning many raids Following the war Kesselring was tried and convicted of war crimes following a number of massacres of civilians in Italy He was sentenced to death later commuted to life imprisonment before being released on the grounds of ill health in October 1952 Here Pier Paolo Battistelli provides a detailed study of one of the most famous German commanders of World War II Kesselring TEDDY D. BITNER,2025-05-22 This study attempts to analyze the decisions made by Field Marshal Albert Kesselring prior to and during the battle of Anzio in February 1944 The focus of the investigation is on Kesselring s decision to shift Army Group reserves from the Rome area prior to the Allied amphibious assault at Anzio on 18 January 1944 then his involvement in the development and execution of the German counterattack against the Allied beachhead conducted on 16 February 1944 The investigation reveals that Kesselring the Army Group commander made a proper and effective decision in committing the Army Group reserves to the German defensive line prior to the invasion and that his involvement in the development and execution of the German counterattack at Anzio was doctrinally sound and generally effective This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc

**Calculated Risk** Mark W. Clark, 2024-05-01 The World War II campaign of the Mediterranean Theatre the soft underbelly of the Axis as Churchill so wrongly called it was compounded of elements reminiscent of the heyday of the Foreign Legion intrigue suspense a secret mission to a secret seaside villa in Algeria the strange but necessary alliance with Darlan and then the bloody muddy and most unexpectedly long and difficult Italian campaign where the roster of troops sounded like the roll call of the allied nations These are elements to make any book interesting and if past history still exciting and General Clark has capitalized fully on them There are sketches of Churchill of Eisenhower in his difficult coordinating position of the war s lesser known heroes the officers and enlisted men of the battle command Clark wanted and finally received And there is the series of almost fatal blunders which followed the taking of Rome when the Western Allies seemed almost determined to play into the hands of the Russians Tito might have left the Kremlin s orbit sooner and the present list of satellite nations might have been smaller And when Clark was made American high commissioner of Austria he experienced more of the same lack of foresight and he concludes with a political sophistication not common to the military We celebrated a victory when in reality we had not won the War Honest forceful colorful this is one of the best books to come from World War II s top brass Kirkus Calculated Risk deals in large part with events and situations in which General Clark and I were not only close associates but friends and comrades But even if I am therefore a prejudiced witness I cheerfully and unhesitatingly prophesy that thousands will find the book as accurate and as completely absorbing as I did Dwight D Eisenhower F orthright hard hitting stuff This book should be widely read A high powered high tempered man afraid of nothing and no man Clark was consistently given tough assignments His superiors always seem to have had complete confidence in his ability to carry out these assignments and always gave him their full moral support The whole Mediterranean Campaign he says was a calculated risk The North African Campaign was an extremely perilous military adventure Aside from possible French and probable German resistance in North Africa there was always the threat of Spanish or German attack via Spanish Morocco on our extended lines of communication an attack which might well have been fatal a fascinating book Richard E Danielson The Atlantic
