The Rival Queens Nancy Goldstone, 2015-06-18 A gripping tale of royal feuds and divided kingdoms AMANDA FOREMAN Paris 1572 Catherine de Medici the infamous queen mother of France is a consummate pragmatist and powerbroker who has dominated the throne for thirty years Her youngest daughter Marguerite the glamorous Queen Margot is a passionate free spirit the only adversary whom her mother can neither intimidate nor fully control When Catherine forces the Catholic Marguerite to marry the Protestant Henry of Navarre she creates not only savage conflict within France but also a potent rival within her own family Treacherous court politics poisonings international espionage and adultery form the background to a extraordinary story about two formidable queens featuring a fascinating array of characters including such celebrated figures as Elizabeth I Mary Queen of Scots and Nostradamus

Marguerite de Valois Alexandre Dumas, 1909 Following Margot the daughter of the late King Henry II Marguerite de Valois tells the story of the French Wars of Religion and the reign of Charles IX This is the second book in the two volume set

Memoirs of Marguerite de Valois, Queen of Navarre (Complete) King of France consort of Henry IV Queen Marguerite, The Memoirs of which a new translation is now presented to the public are the undoubted composition of the celebrated princess whose name they bear the contemporary of our Queen Elizabeth of equal abilities with her but of far unequal fortunes Both Elizabeth and Marguerite had been bred in the school of adversity both profited by it but Elizabeth had the fullest opportunity of displaying her acquirements in it Queen Elizabeth met with trials and difficulties in the early part of her life and closed a long and successful reign in the happy possession of the good will and love of her subjects Queen Marguerite during her whole life experienced little else besides mortification and disappointment she was suspected and hated by both Protestants and Catholics with the latter of whom though she invariably joined in communion yet was she not in the least inclined to persecute or injure the former Elizabeth amused herself with a number of suitors but never submitted to the yoke of matrimony Marguerite in compliance with the injunctions of the Queen her mother and King Charles her brother married Henri King of Navarre afterwards Henri IV of France for whom she had no inclination and this union being followed by a mutual indifference and dislike she readily consented to dissolve it soon after which event she saw a princess more fruitful but less prudent share the throne of her ancestors of whom she was the only representative Elizabeth was polluted with the blood of her cousin the Queen of Scots widow of Marguerite s eldest brother Marguerite saved many Huguenots from the massacre of St Bartholomew s Day and according to Brantome the life of the King her husband whose name was on the list of the proscribed To close this parallel Elizabeth began early to govern a kingdom which she ruled through the course of her long life with severity yet gloriously and with success Marguerite after the death of the Queen her mother and her brothers though sole heiress of the House of Valois was by the Salic law excluded from all pretensions to the Crown of France and though for the greater part of her life shut up in a castle surrounded by rocks and mountains she has not escaped the shafts of obloquy The Translator has added

some notes which give an account of such places as are mentioned in the Memoirs taken from the itineraries of the time but principally from the Geographie Universelle of Vosgien in which regard is had to the new division of France into departments as well as to the ancient one of principalities archbishoprics bishoprics generalities chatellenies balliages duchies seigniories etc In the composition of her Memoirs Marguerite has evidently adopted the epistolary form though the work came out of the French editor's hand divided into three as they are styled books these three books or letters the Translator has taken the liberty of subdividing into twenty one and at the head of each of them he has placed a short table of the contents This is the only liberty he has taken with the original Memoirs the translation itself being as near as the present improved state of our language could be brought to approach the unpolished strength and masculine vigour of the French of the age of Henri IV This translation is styled a new one because after the Translator had made some progress in it he found these Memoirs had already been made English and printed in London in the year 1656 thirty years after the first edition of the French original This translation has the following title The grand Cabinet Counsels unlocked or the most faithful Transaction of Court Affairs and Growth and Continuance of the Civil Wars in France during the Reigns of Charles the last Henry III and Henry IV commonly called the Great Most excellently written in the French Tongue by Margaret de Valois Sister to the two first Kings and Wife of the last Faithfully translated by Robert Codrington Master of Arts and again as Memorials of Court Affairs etc London 1658 The Memoirs of Queen Marguerite contained the secret history of the Court of France during the space of seventeen years from 1565 to 1582 and they end seven years before Henri III her brother fell by the hands of Clement the monk consequently they take in no part of the reign of Henri IV as Mr Codrington has asserted in his title page though they relate many particulars of the early part of his life Marguerite's Memoirs include likewise the history nearly of the first half of her own life or until she had reached the twenty ninth year of her age and as she died in 1616 at the age of sixty three years there remain thirty four years of her life of which little is known In 1598 when she was forty five years old her marriage with Henri was dissolved by mutual consent she declaring that she had no other wish than to give him content and preserve the peace of the kingdom making it her request according to Brantome that the King would favour her with his protection which as her letter expresses she hoped to enjoy during the rest of her life Sully says she stipulated only for an establishment and the payment of her debts which were granted After Henri in 1610 had fallen a victim to the furious fanaticism of the monk Ravallac she lived to see the kingdom brought into the greatest confusion by the bad government of the Queen Regent Marie de Medici who suffered herself to be directed by an Italian woman she had brought over with her named Leonora Galligai This woman marrying a Florentine called Concini afterwards made a marshal of France they jointly ruled the kingdom and became so unpopular that the marshal was assassinated and the wife who had been qualified with the title of Marquise d'Ancre burnt for a witch This happened about the time of Marguerite's decease
