Leo Strauss and Emmanuel Levinas Leora Batnitzky, 2006-05-22 Leo Strauss and Emmanuel Levinas two twentieth century Jewish philosophers and two extremely provocative thinkers whose reputations have grown considerably are rarely studied together This is due to the disparate interests of many of their intellectual heirs Strauss has influenced political theorists and policy makers on the right while Levinas has been championed in the humanities by different cadres associated with postmodernist thought In *Leo Strauss and Emmanuel Levinas Philosophy and the Politics of Revelation* first published in 2006 Leora Batnitzky brings together these two seemingly incongruous contemporaries demonstrating that they often had the same philosophical sources and their projects had many formal parallels While such a comparison is valuable in itself for better understanding each figure it also raises profound questions in the debate on the definitions of religion suggesting ways that religion makes claims on both philosophy and politics

Arendt, Levinas and a Politics of Relationality Anya Topolski, 2015-05-21 Born in Eastern Europe educated in the West under the guidance of Martin Heidegger and the phenomenological tradition and forced to flee during the Holocaust because of their Jewish identity it should come as no surprise that Emmanuel Levinas and Hannah Arendt's ideas intersect in an important way This book demonstrates for the first time the significance of a dialogue between Levinas's ethics of alterity and Arendt's politics of plurality Anya Topolski brings their respective projects into dialogue by means of the notion of relationality a concept inspired by the Judaic tradition that is prominent in both thinker's work The book explores questions relating to the relationship between ethics and politics the Judaic contribution to rethinking the meaning of the political after the Shoah and the role of relationality and responsibility for politics The result is an alternative conception of the political based on the ideas of plurality and alterity that aims to be relational inclusive and empowering

On Escape Emmanuel Lévinas, 2003 First published in 1935 *On Escape* represents Emmanuel Levinas's first attempt to break with the ontological obsession of the Western tradition In it Levinas not only affirms the necessity of an escape from being but also gives a meaning and a direction to it Beginning with an analysis of need not as lack or some external limit to a self sufficient being but as a positive relation to our being Levinas moves through a series of brilliant phenomenological analyses of such phenomena as pleasure shame and nausea in order to show a fundamental insufficiency in the human condition In his critical introduction and annotation Jacques Rolland places *On Escape* in its historical and intellectual context and also within the context of Levinas's entire oeuvre explaining Levinas's complicated relation to Heidegger and underscoring the way Levinas's analysis of being riveted of the need for escape is a meditation on the body

Of God Who Comes to Mind Emmanuel Lévinas, 1998 The

thirteen essays collected in this volume investigate the possibility that the word God can be understood now at the end of the twentieth century in a meaningful way. Nine of the essays appear in English translation for the first time. Among Levinas's writings, this volume distinguishes itself both for students of his thought and for a wider audience by the range of issues it addresses. Levinas not only rehearses the ethical themes that have led him to be regarded as one of the most original thinkers working out of the phenomenological tradition but he also takes up philosophical questions concerning politics, language, and religion. The volume situates his thought in a broader intellectual context than have his previous works. In these essays, alongside the detailed investigations of Husserl, Heidegger, Rosenzweig, and Buber that characterize all his writings, Levinas also addresses the thought of Kierkegaard, Marx, Bloch, and Derrida. Some essays provide lucid expositions not available elsewhere to key areas of Levinas's thought. *God and Philosophy* is perhaps the single most important text for understanding Levinas and is in many respects the best introduction to his works. *From Consciousness to Wakefulness* illuminates Levinas's relation to Husserl and thus to phenomenology, which is always his starting point, even if he never abides by the limits it imposes. In *The Thinking of Being and the Question of the Other*, Levinas not only addresses Derrida's *Speech and Phenomenon* but also develops an answer to the later Heidegger's account of the history of Being by suggesting another way of reading that history. Among the other topics examined in the essays are the Marxist concept of ideology, death, hermeneutics, the concept of evil, the philosophy of dialogue, the relation of language to the Other, and the acts of communication and mutual understanding.

Emmanuel Levinas and His Interlocutors Hanoch Ben-Pazi, 2025-09-30

The philosophy of Emmanuel Levinas introduces a groundbreaking shift in ethical discourse by prioritizing the uniqueness of the Other. Levinas redefines morality by emphasizing the existential precedence of the Other over the self, challenging the self-centered nature of modern individualism. This book offers a fresh perspective on Levinas's thought, contextualizing his philosophy through his intellectual influences, dialogues with contemporaries, and imagined conversations with thinkers from both Eastern and Western traditions. It provides a profound exploration of the interplay between Jewish thought and universal philosophy, bridging particularistic commitments and global ethical perspectives. Accessible yet deeply scholarly, the book brings Levinas's philosophy into broader social, religious, political, and interpretative contexts, making it an essential read for intellectual audiences.

Collected Philosophical Papers Emmanuel Levinas, 1993 [Emmanuel Levinas](#) Lara Trout, 2005

Outside the Subject Emmanuel Lévinas, 1994 This volume consists of fourteen pieces selected by Levinas himself in 1987 from a large body of uncollected essays.

Levinas and the Political Howard Caygill, 2002

Howard Caygill systematically explores for the first time the relationship between Levinas's thought and the political. From Levinas's early writings in the face of National Socialism to controversial political statements on Israeli and French politics, Caygill analyses themes such as the deconstruction of metaphysics, embodiment, the face, and alterity. He also examines Levinas's engagement with his contemporaries Heidegger and Bataille and the implications of his rethinking of the political for an understanding of
