Practical Guide to Enlightenment Adam Wagner,2021 This book outlines a process that can guide one to enlightenment The language surrounding enlightenment is fanciful and misleading Enlightenment is to stop the mind To stop your thoughts As simple as that This is how you do that A simple meditation process can guide you there but there is more to it then meets the eye Inspired by The Power of Now this book can lead you to flow state To nirvana God or riches Good luck Please review

Long Walk to Enlightenment Thillayvel Naidoo,2010-04-16 **The Only Real Way to Enlightenment** James J. Fairlie,2018-06-05 Everything in this book is backed up by incredible quotes from Jesus Buddha and Lao Tzu who is the central figure of Taoism as well as other ancient sages demonstrating that these figures from all around the world were teaching of the same enlightenment This book is designed to teach you the most vital life changing lessons which you need to know to live well and attain wisdom it serves as a guide as well as a catalyst for awakening your mind to raw truths and it doesn t hold anything back even when it goes against the conditioned story of materialism that modern society wants you to believe Open your mind to astonishing truths taught by the sages such as that life is really an eternal mind based experience and listen to teachings on how you should really be dealing with meditation relationships laziness arguments problems depression loneliness modern culture and its insane beliefs memory karma enlightenment the ultimate truth of life and more The author stands apart from other teachers as he dives more deeply into the inner workings of your spiritual essence than you have ever seen before Using penetrative insight he covers topics which many shy away from discussing such as taking a look at the delusional beliefs spread throughout the modern world and he does so authentically without a hint of ego attached to his words Here is finally an easy to read book which brings you straight to the answers and the truths of enlightened wisdom **Enlightenment** Carsten Burmeister, *Enlightenment Behind the Scenes* Marc Leavitt,2012-08-24 Is it possible to map the directions to a Void Is it conceivable that one can point to the abyss Just maybe it can be done and here is how I propose to do it It starts with the recounting of my personal quest for Spiritual Enlightenment which can also serve as a roadmap for any human being who takes the spiritual journey seriously This story centers on the peak period of my spiritual journey just after returning home from a weeklong meditation retreat at the world renowned Monroe Institute I had been home less than a week after attending one of their advanced programs when without warning I began to have profound Visions while living out my day to day life I could be taking a walk with my wife and daughter or going about my daily routine at work when I would find myself spontaneously thrust into a vastly more expansive perspective that placed my entire world in a wholly new context These Visions were progressive in nature as they clearly and pointedly demonstrated to me the Grand Design of Reality Some of these Visions were existentially devastating and some were downright terrifying as they exposed the true nature of the self Others were so blissful that they could only be tolerated for brief moments Ultimately they

coalesced to reveal a model of Reality that is as elegant in its simplicity as it is mind numbing in its implications In this book I outline a play by play account of how four of these Visions shaped a new understanding regarding the true architecture of Reality and how this understanding resolves some of our greatest philosophical paradoxes such as the relationship between mind and matter or God and the world Given the universal nature of these experiences there are opportunities throughout the book for you to verify each truth for yourself I wrote this book to demystify the subject of Enlightenment There are already many excellent books on the subject of Enlightenment otherwise known as Nondual Wisdom However what is missing is a book that chronicles the day to day month to month and year to year unfolding of the Self in detail This book is a very personal account of an incredibly impersonal process broken down step by step and presented almost in slow motion The reader is invited on a journey that chronicles each step along the path to Enlightenment The details of the climactic experience itself and the final understanding that results from undergoing such a radical and permanent shift in perspective is where I intend to lead you It is also my hope that this book will demonstrate how the experience of Enlightenment is not something mythical a fable belonging to some other time or place but an actual shift in perspective that is available right here and now to anyone who is curious enough to explore the true nature of being I speak to you from the point of view that we all share the human experience and when we explore the depths of our minds we find that the same treasure awaits us all The fact that I am a husband and father with a full time career stands as proof that you don t have to choose between a worldly life and Enlightenment Throughout the book you are offered a number of opportunities to verify for yourself some of the subject matter as its being discussed To be true to my story I rely mostly on my personal journals which are individually dated and appear in italics while my current narration appear in normal type And so it begins
