Australian Language Matters, 2000 Words Ernst van den Hemel, Asja Szafraniec, 2016 It is said that words are like people One can encounter them daily yet never come to know their true selves This volume examines what words are how they exist in religious phenomena Going beyond the common idea that language merely describes states of mind beliefs and intentions the book looks at words in their performative and material specificity The contributions in the volume develop the insight that our implicit assumptions about what language does guide the way we understand and experience religious phenomena They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language *Pastor Paul (Theological Explorations for the Church Catholic)*

Scot McKnight, 2019-09-03 Being a pastor is a complicated calling Pastors are often pulled in multiple directions and must become all things to all people 1 Cor 9 22 What does the New Testament say or not say about the pastoral calling And what can we learn about it from the apostle Paul According to popular New Testament scholar Scot McKnight pastoring must begin first and foremost with spiritual formation which plays a vital role in the life and ministry of the pastor As leaders pastors both create and nurture culture in a church The biblical vision for that culture is Christoformity or Christlikeness Grounding pastoral ministry in the pastoral praxis of the apostle Paul McKnight shows that nurturing Christoformity was at the heart of the Pauline mission The pastor's central calling then is to mediate Christ in everything McKnight explores seven dimensions that illustrate this concept friendship siblings generosity storytelling witness subverting the world and wisdom as he calls pastors to be conformed to Christ and to nurture a culture of Christoformity in their churches Confronting Technology Matthew T. Prior, 2020-03-16 We are living through a digital revolution which already touches every area of life and will continue to shape the future in as yet unforeseen ways Digital technologies are an ordinary part of daily life and yet they also present an unprecedented challenge to Christians to articulate a biblical theological framework to navigate times of rapid change The work of the French theologian Jacques Ellul is a theological time bomb primed for times like these Accounts of Ellul's career often divide off his sociology and theology but this book argues that Ellul conceived a single project of bringing technology into confrontation with the Word of God tackling the phenomenon he named technique the pursuit of maximal power and efficiency implicit in the technological enterprise with a profound depth of biblical and ethical insight Centering himself on the apocalypse or revelation of Jesus Christ in history Ellul offers a monumental timely though far from flawless contribution to contemporary ethical debates about the uses and abuses of technologies His work blazes a trail that Christians and all concerned for the future would do well to follow as we avoid both the naivety of technological neutrality and the dread of technological determinism The Leviathan Factor Lawrence E. Burkholder, 2017-01-12 The Leviathan Factor tells the incredible story of how Satan created as Lucifer the morning star self transformed into Leviathan God's serpentine arch foe When he tried to achieve immortality by tweaking creation's lowest level laws a sophisticated computer

automaton he created death instead As the serpent he reappeared in the Genesis tree of good and evil where he seduced humans to attempt immortality apart from covenant with God Leviathan is responsible for the false belief that we each have an inner divine spark which when reconnected to our ego awakens our true inherent divinity Unfortunately he and his demonic spirits also impact our minds bodies and environment as psi A few of the many markers of these demonic psi are levitation telepathy telekinesis deja vu emotional oppressions poltergeist activities past lives memories voices and visions near death and out of body experiences and trance channeling Many of these psi phenomena are co factors in mind disorders such as schizophrenia or epilepsy Manifestations in Christian circles include false tongues and holy laughter The Leviathan Factor is not a healing how to It is the first book to place demonic evil into the context of creation s basic structures and laws
