AMERICAN REALISM

Downwardly Mobile The Changing Fortunes Of American Realism

Lingsheng Yao

Downwardly Mobile The Changing Fortunes Of American Realism:

Downwardly Mobile Andrew Lawson, 2012-04-19 In the unstable economy of the nineteenth century few Americans could feel secure Paper money made values less tangible while a series of financial manias panics and depressions clouded everyday life with uncertainty and risk In this groundbreaking study Andrew Lawson traces the origins of American realism to a new structure of feeling the desire of embattled and aspiring middle class for a more solid and durable reality The story begins with New England authors Susan Warner and Rose Terry Cooke whose gentry class families became insolvent in the wake of the 1837 Panic and moves to the western frontier where the early careers of Rebecca Harding Davis and William Dean Howells were shaped by a constant struggle for social position and financial security We see how the pull of downward social mobility affected even the outwardly successful bourgeois family of Henry James in New York while the drought stricken wheat fields of Iowa and South Dakota produced the most militant American realist Hamlin Garland For these writers realism offered to stabilize an uncertain world by capturing it with a new sharpness and accuracy It also revealed a new cast of social actors factory workers slaves farm laborers the disabled and the homeless all victims of an unregulated market Combining economic history and literary analysis to powerful effect Downwardly Mobile shows how the fluctuating fortunes of the American middle class forced the emergence of a new kind of literature while posing difficult political choices about how the middle class might remedy its precarious condition

Downward Mobility Katherine Binhammer, 2020-04-28 How do the stories we tell about money shape our economies Beginning in the late eighteenth century as constant growth became the economic norm throughout Europe fictional stories involving money were overwhelmingly about loss Novel after novel tells the tale of bankruptcy and financial failure of people losing everything and ending up in debtor's prison of inheritances lost and daughters left orphaned and poor In Downward Mobility Katherine Binhammer argues that these stories of ruin are not simple tales about the losers of capitalism but narratives that help manage speculation of capital's inevitable collapse Bringing together contemporary critical finance studies with eighteenth century literary history Binhammer demonstrates the centrality of the myth of downward mobility to the cultural history of capitalism and to the emergence of the novel in Britain Deftly weaving economic history and formal analysis Binhammer reveals how capitalism requires the novel's complex techniques to render infinite economic growth imaginable She also explains why the novel's signature formal developments owe their narrative dynamics to the contradictions within capital's form Combining new archival research on the history of debt with original readings of sentimental novels including Frances Burney's *Cecilia* and Camilla Sarah Fielding's *David Simple* and Oliver Goldsmith's *The Vicar of Wakefield* Downward Mobility registers the value of literary narrative in interpreting the complex sequences behind financial capitalism especially the belief in infinite growth that has led to current environmental crises An audacious epilogue arms humanists with the argument that in order to save the planet from unsustainable growth we need to read more novels

The Myths That Made

America Heike Paul, 2014-08-15 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US American identities today These myths include the myth of discovery the Pocahontas myth the myth of the Promised Land the myth of the Founding Fathers the melting pot myth the myth of the West and the myth of the self made man The chapters provide extended analyses of each of these myths using examples from popular culture literature memorial culture school books and every day life Including visual material as well as study questions this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building

Legal Realisms Christine Holbo, 2019 The Civil War Reconstruction and the post war Amendments revolutionized American intellectual life compelling new discussions of inequality and difference Legal Realisms explores how a new kind of American novel emerged in relation to contemporary aesthetic legal and political debates about the meaning of social representation in literature and public life

The Routledge Companion to Literature and Economics Matt Seybold, Michelle Chihara, 2018-09-17 The study of literature and economics is by no means a new one but since the financial crash of 2008 the field has grown considerably with a broad range of both fiction and criticism The Routledge Companion to Literature and Economics is the first authoritative guide tying together the seemingly disparate areas of literature and economics Drawing together 38 critics the Companion offers both an introduction and a springboard to this sometimes complex but highly relevant field With sections on Critical traditions Histories Principles and Contemporary culture the book looks at examples from Medieval and Renaissance literature through to poetry of the Great Depression and novels depicting the 2008 financial crisis Covering topics from Austen to austerity Marxism to modernism the collated essays offer indispensable analysis of the relationship between literary studies and the economy Representing a wide spectrum of approaches this book introduces the basics of economics while engaging with essential theory and debate As the reality of economic hardship and disparity is widely acknowledged and spreads across disciplines this Companion offers students and scholars a chance to enter this crucially important interdisciplinary area

Reading the Market Peter Knight, 2016-09-01 America's fascination with the stock market dates back to the Gilded Age Winner of the BAAS Book Prize of the British Association of American Studies Americans pay famously close attention to the market obsessively watching trends patterns and swings and looking for clues in every fluctuation In Reading the Market Peter Knight explores the Gilded Age origins and development of this peculiar interest He tracks the historic shift in market operations from local to national while examining how present day ideas about the nature of markets are tied to past genres of financial representation Drawing on the late nineteenth century explosion of art literature and media which sought to dramatize the workings of the stock market for a wide audience Knight shows how ordinary Americans became both emotionally and financially invested in the market He analyzes popular investment manuals brokers newsletters newspaper columns magazine articles illustrations and cartoons

He also introduces readers to fiction featuring financial tricksters which was characterized by themes of personal trust and insider information The book reveals how the popular culture of the period shaped the very idea of the market as a self regulating mechanism by making the impersonal abstractions of high finance personal and concrete From the rise of ticker tape technology to the development of conspiracy theories Reading the Market argues that commentary on the Stock Exchange between 1870 and 1915 changed how Americans understood finance and explains what our pervasive interest in Wall Street says about us now Theatre Record ,1999 *Class and the Making of American Literature* Andrew Lawson,2014-03-14 This book refocuses current understandings of American Literature from the revolutionary period to the present day through an analytical accounting of class reestablishing a foundation for discussions of class in American culture American Studies scholars have explored the ways in which American society operates through inequality and modes of social control focusing primarily on issues of status group identities involving race ethnicity gender sexuality and disability The essays in this volume focus on both the historically changing experience of class and its continuing hold on American life The collection visits popular as well as canonical literature recognizing that class is constructed in and mediated by the affective and the sensational It analyzes class division class difference and class identity in American culture enabling readers to grasp why class matters as well as the economic social and political matter of class Redefining the field of American literary cultural studies and asking it to rethink its preoccupation with race and gender as primary determinants of identity contributors explore the disciplining of the laboring body and of the emotions the political role of the novel in contesting the limits of class power and authority and the role of the modern consumer culture in both blurring and sharpening class divisions Falling from Grace Katherine S. Newman,2023-04-28 Over the last three decades millions of people have slipped through a loophole in the American dream and become downwardly mobile as a result of downsizing plant closings mergers and divorce the middle aged computer executive laid off during an industry crisis blue collar workers phased out of the post industrial economy middle managers whose positions have been phased out and once affluent housewives stranded with children and a huge mortgage as the result of divorce Anthropologist Katherine S Newman interviewed a wide range of men women and children who experienced a precipitous fall from middle class status and her book documents their stories For the 1999 edition Newman has provided a new preface and updated the extensive data on job loss and downward mobility in the American middle class documenting its persistence even in times of prosperity Over the last three decades millions of people have slipped through a loophole in the American dream and become downwardly mobile as a result of downsizing plant closings mergers and divorce the middle aged computer executive laid off during an indus *A Hazard of New Fortunes, Complete* William Howells,2018-01-23 In this novel although Howells briefly discusses the American Civil War he primarily deals with issues of post war Gilded Age America like labor disputes the rise of the self made millionaire the growth of urban America the influx of immigrants and other industrial era problems Many critics

consider *A Hazard of New Fortunes* to be one of Howells most important examples of American literary Realism because he portrays a variety of people from different backgrounds The book was well received for its portrayal of social injustice *A Hazard of New Fortunes* William Dean Howells, 1983 A robust account of the tumultuous conflict between wealth and conscience in turn of the century New York Howells s great novel gets at the heart of the American experience at a time of great transformation and remains one of his most enduring and relevant works This edition includes newly commissioned endnotes Copyright Libri GmbH All rights reserved

Downwardly Mobile The Changing Fortunes Of American Realism Introduction

In today's digital age, the availability of Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Downwardly Mobile The Changing Fortunes Of American Realism versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Downwardly Mobile The Changing Fortunes Of American Realism books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Downwardly Mobile The Changing Fortunes Of American Realism books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a

non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Downwardly Mobile The Changing Fortunes Of American Realism books and manuals for download and embark on your journey of knowledge?
