Dr Beechings Axe 50 Years On Memories Of Britains Lost Railways:

Dr Beeching's Axe 50 Years On Julian Holland,2013-09-27 Julian Holland s Dr Beeching s Axe 50 Years On is a unique memorial to all that was lost following the publication of the Beeching Report on 27 March 1963 Uniquely the author has tried to include every railway line that was closed as a result of the Beeching Report and more They are all shown on Map 9 in Part 2 of the Report and have been annotated for clarity at the beginning of each regional chapter in the book Needless to say it is not plain sailing there are lines that were marked for closure on the maps but were closed before publication of the Report there are lines that were not originally on Beeching s original hit list but which were closed anyway there are lines that were originally marked down for closure but which were fortunately reprieved There are even one or two which seem to have not existed at all The author has included them all **Dr Beeching's Axe 50 Years On** Julian Holland,2013 With images of protests last trains and the subsequent dereliction Julian Holland presents a vivid picture of this dramatic and drastic shake up of Britain s railways Julian Holland s Dr Beeching s Axe 50 Years On is a unique memorial to all that was lost following the publication of the Beeching Report on 27 March 1963 Across the land railways were ripped up and communities were broken apart Vast regions of England Scotland and Wales were left without a railway link to the outside world Skilled railwaymen who for generations had loyally given their all to the company were tossed aside for the sake of a politically motivated love affair with road transport There was never any joined up thinking Integrated transport What s that it was never properly thought through and our country has suffered ever since witness the near gridlock on our motorways Uniquely the author has tried to include every railway line that was closed as a result of the Beeching Report and more They are all shown on Map 9 in Part 2 of the Report and have been annotated for clarity at the beginning of each regional chapter in the book Needless to say it is not plain sailing there are lines that were marked for closure on the maps but were closed before publication of the Report there are lines that were not originally on Beeching s original hit list but which were closed anyway there are lines that were originally marked down for closure but which were fortunately reprieved There are even one or two which seem to have not existed at all The author has included them all **At the Crossroads of Time** Andrew C. Scott,2020-02-15 The incredible story of how the village of Lesmahagow has influenced the world in a variety of fields from industry to espionage throughout history **Beeching: 50 Years On** Anthony Poulton-Smith,2013-02-01 In 1963 Dr Beeching s infamous report signalled the end for over 15 000 miles of track a third of Britain s stations and for 70 000 jobs as well as making irrevocable changes to the way of life of many consumers Much misery was caused and Beeching s name was muddled but in hindsight the report probably did more than any other single factor to preserve the nation s railway heritage Without the Beeching cuts much of the locomotives stock tracks signals and signs would have crumbled been forgotten or rotted However the gentle railway gradients lend themselves perfectly to walkways and cycle paths buildings have been refurbished memorabilia now commands prices at auction which would astonish those who painted the metal And of course

the heritage lines continue to draw many thousands of visitors each year After the initial shock of the cuts this fresh appraisal considers these benefits and more which may not have come about without the Beeching Report *Little Book of Beeching* Robin Jones, 2013-10-24 Described as the most hated civil servant in Britain it was half a century ago that Dr Richard Beeching was appointed as chairman of British Railways with one key directive to cut the soaring losses The 1950s had seen the start of a mass shift from public to private transport as lorries cars buses and motorbikes replaced trains as Britain's most popular means of travel So often pilloried by the press and public for closing numerous picturesque and romantic country branch lines leaving even many large towns cut off from the railway network Beeching might also be seen as merely streamlining a process that was already underway Back in the early Sixties there were many who thought that not only were the days of steam locomotives numbered but those of railways too as mankind leaping towards the first lunar landings looked toward hovercraft and hovertrains as the transport of the future Against the dynamic background of the greatest decade of change of the 20th century Heritage Railway editor Robin Jones looks back at the forces that were shaping the railway's fortunes the Beeching Axe its critics aftermath and its repercussions today Was Dr Beeching the villain of popular legend or was he a hero who made Britain's railways into a slimmer leaner machine far more capable of tackling the challenges of the future You decide **Discovering Britain's Lost Railways** Paul Atterbury, 2009 **Lost Lines** Muriel Vivienne Searle, 1982 **Last Trains** Charles Loft, 2013-03-27 The debate about Dr Richard Beeching will rage until the Second Coming and probably beyond But in Charles Loft's careful examination of the Beeching Report we have as fine a study as we are going to possess in the meantime Peter Hennessy Loft's great strength is his judiciousness He understands the political processes and assesses them fairly minded And his verdict will I suspect hold up better than any of Beeching's judgements Matthew Engel Financial Times Prepare to be impressed shocked and saddened This is undoubtedly one of the best books of the year a riveting read Railways Illustrated Lucid to the point thought provoking at every turn Last Trains is a volume that everyone should read before making judgements about the rail closures of the Sixties Heritage Railway Thoughtful and well researched analysis Edinburgh Evening News During the course of the 1950s England lost confidence in its rulers and convinced itself it must modernise The failing steam powered local railways run by Colonel Blimp symbolised everything that was wrong with the country surely the future lay in motorways and high speed express trains Along came Dr Beeching with his diagnosis and suddenly branch line Britain was gone for ever The debate about the Beeching cuts has raged ever since In this superbly researched examination Charles Loft exposes the political failures that bankrupted the railways and lays bare the increasing alienation of bureaucrats from the public they were trying to serve The result is a fascinating study of a nation grappling to come to terms with modernity **The Beeching Legacy** Philip Horton, 2010 1963 saw the publication by Her Majesty's Stationery Office of Part 1 of the report The Reshaping of British Railways by Dr Richard Beeching This book is intended as a record of how the proposals in the Beeching Report affecting passenger services in the Wessex Area were

implemented over a ten year period *Beeching* ,2011 **The Times Exploring Britain's Lost Railways** Julian Holland,2013 Exploring Britain's Lost Railways gives the historical background to 50 lost railway lines along with details of the route today and clear directions for the walker and the cyclist **Dr. Beeching and the Reshaping of British Railways** Ian E.
