Rhetoric, Religion and the Civil Rights Movement, 1954-1965 Davis W. Houck, David E. Dixon, 2006 V 2 Building upon their critically acclaimed first volume Davis W Houck and David E Dixon s new Rhetoric Religion and the Civil Rights Movement 1954 1965 is a recovery project of enormous proportions Houck and Dixon have again combed church archives government documents university libraries and private collections in pursuit of the civil rights movement s long buried eloquence Their new work presents fifty new speeches and sermons delivered by both famed leaders and little known civil rights activists on national stages and in quiet shacks The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era Houck and Dixon s work illustrates again how a movement so prominent in historical scholarship still has much to teach us

arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century **Black Christology and the Quest for Authenticity** John H. McClendon III, 2019-05-03 Black Christology and the Quest for Authenticity A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology Explicitly the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology This text critically expounds on the methodologies and arguments which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity Significantly the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race Clearly the philosophy of race in terms of its substance and scope is continually expanding Notably the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the philosophy of race Therefore Black Christology and the Quest for Authenticity A Philosophical Appraisal stands as a unique contribution to philosophy of race Summarily while this book tackles the formidable problem of Christian theological subject matter nonetheless the reader must be aware that this is not

a work executed methodologically in any theological manner inclusive of Christian theology Subsequently while the object of our investigation substantively remains theological in character the method of investigation is guided by philosophical inquiry which is based on secular principles Furthermore although most mainstream works in philosophy of religion along with theology neglect to exam African American theologians and philosophers the subject matter of Black Christology substantially facilitates in filling this intellectual void

The History of Black Studies Abdul Alkalimat,2021-10-20 A surge of African American enrolment and student activism brought Black Studies to many US campuses in the 1960s Sixty years later Black Studies programmes are taught at more than 1 300 universities worldwide This book is the first history of how that happened Black Studies founder and movement veteran Abdul Alkalimat offers a comprehensive history of the discipline that will become a key reference for generations to come Structured in three broadly chronological sections Black Studies as intellectual history as social movement and as academic profession the book demonstrates how Black people themselves established the field long before its institutionalisation in university programmes At its heart Black Studies is profoundly political Black Power the New Communist Movement the Black women s and students movements each step in the journey for Black liberation influenced and was influenced by this revolutionary discipline

How Black Colleges Empower Black Students Frank W. Hale,2023-07-03 To their disadvantage few Americans and few in higher education know much about the successes of historically Black colleges and universities How is it that historically Black colleges graduate so many low income and academically poorly prepared students How do they manage to do so well with students as they are even when adopting open admissions policies In this volume contributors from a wide spectrum of Black colleges offer insights and examples of the policies and practice such as retention strategies co curricular activities and approaches to mentoring which underpin their disproportionate success with populations that too often fail in other institutions This book also challenges the myth that these colleges are segregated institutions and that teachers of color are essential to minority student success HBCUs employ large numbers of non Black faculty who demonstrate the ability to facilitate the success of African American students This book offers valuable lessons for faculty faculty developers student affairs personnel and administrators in the wider higher education community lessons that are all the more urgent as they face a growing racially diverse student population While for HBCUs themselves this book reaffirms the importance of their mission today it also raises issues they must address to maintain the edge they have achieved Contributors Pamela G Arrington Delbert Baker Susan Baker Stanley F Battle T J Bryan Terrollyn P Carter Ronnie L Collins Samuel DuBois Cook Elaine Johnson Copeland Marcela A Copes Quiester Craig Lawrence A Davis Jr Frances C Gordon Frank W Hale Jr B Denise Hawkins Karen A Holbrook James E Hunter Frank L Matthews Henry Ponder Anne S Pruitt Logan Talbert O Shaw Orlando L Taylor W Eric Thomas M Rick Turner Mervyn A Warren Charles V Willie James G Wingate
