Dr Guillotines Nightmare And Other Short Stories:

Dr. Guillotine's Nightmare & Other Short Stories Bob Little, 2014-03 This is a collection of short stories patterned after the works of O Henry and Ambrose Bierce They each have an ironic twist at the end Some are scary and macabre mysteries suitable for Boy Scout camp fires They are not for the faint of heart **Dr Guillotine** Herbert Lom, 1992 The veteran film actor's first novel is a macabre blackly comic fictional biography of the man who invented the mechanism of execution much feared during the French Revolution **Saint Nicolas' Eve, and Other Tales** Mary Catherine Rowsell, 1876 The Complete Illustrated History of the Skywald Horror-mood Alan Hewetson, 2004 The inside story of a uniquely influential horror comic publisher from the 1970s *Horror Comics in Black and White* Richard J. Arndt, 2013-01-04 In 1954 the comic book industry instituted the Comics Code a set of self regulatory guidelines imposed to placate public concern over gory and horrific comic book content effectively banning genuine horror comics Because the Code applied only to color comics many artists and writers turned to black and white to circumvent the Code's narrow confines With the 1964 Creepy 1 from Warren Publishing black and white horror comics experienced a revival continuing into the early 21st century an important step in the maturation of the horror genre within the comics field as a whole This generously illustrated work offers a comprehensive history and retrospective of the black and white horror comics that flourished on the newsstands from 1964 to 2004 With a catalog of original magazines complete credits and insightful analysis it highlights an important but overlooked period in the history of comics The New York Times Book Review, 1986 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback **The Bookman**, 1895 Internet Horror, Science Fiction and Fantasy Television Series, 1998-2013 Vincent Terrace, 2014-05-14 This is the first ever compilation on Internet television and provides details of 405 programs from 1998 to 2013 Each entry contains the storyline descriptive episode listings cast and crew lists the official website and comments An index of personnel and programs concludes the book From Barry the Demon Hunter to Time Traveling Lesbian to Hamilton Carver Zombie P I it is a previously undocumented entertainment medium that is just now coming into focus Forty eight photos accompany the text **The Oxford Handbook of Postwar European History** Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and

philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe
