Do Fish Feel Pain? Victoria Braithwaite, 2010-03-25 While there has been increasing interest in recent years in the welfare of farm animals fish are frequently thought to be different In many people's perception fish with their lack of facial expressions or recognisable communication are not seen to count when it comes to welfare Angling is a major sport and fishing a big industry Millions of fish are caught on barbed hooks or left to die by suffocation on the decks of fishing boats Here biologist Victoria Braithwaite explores the question of fish pain and fish suffering explaining what we now understand about fish behaviour and examining the related ethical questions about how we should treat these animals She asks why the question of pain in fish has not been raised earlier indicating our prejudices and assumptions and argues that the latest and growing scientific evidence would suggest that we should widen to fish the protection currently given to birds and mammals

Fish Sense (Picador Shorts) Jonathan Balcombe, 2025-06-10 A quirky intimate and eye opening look into the ways of thinking like a fish An extract from the much loved modern classic on the subject of fish consciousness What a Fish Knows Do fishes think Do they really have three second memories And can they recognize the humans who peer back at them from above the surface of the water Jonathan Balcombe dives in among our marine cousins to explore the essential questions of how fish perceive and process the world With his ethologist's gift for showing us the hidden depths of questions we've routinely preferred to think of as simple and his raconteur's flair for the surprising and the curious Balcombe takes us under the sea through streams and estuaries and to the other side of the aquarium glass to reveal the surprising capabilities of fishes Balcombe upends our assumptions about fishes portraying them not as unfeeling dead eyed feeding machines but as sentient aware social and even Machiavellian in other words much like us Using humor and a repertoire of some of the most

surprising fish facts you've ever heard Balcombe shakes up what you think you know about what's going on inside the mind of these denizens of the deep Fish Sense is part of the Picador Shorts series Oceans Rivers and Streams in which excerpts from beloved classics speak to our relationship with our water bodies great and small
