Do the Math: Secrets, Lies, and Algebra Wendy Lichtman, 2009-02-24 Using concepts from algebra and relating them to life Tess navigates the waters of friendship popularity and family Math lover Tess has always used mathematical concepts to help her understand things in her life She is surprised to find out how much math and life can change in eighth grade She also has to learn about injustice and ethics when a family friend mysteriously dies and when she witnesses a cheating episode at her school and realizes that keeping silent about it even to get in the good graces of the cutest boy in school only leads to more trouble Are theorems and axioms about life fail safe Is there an absolute answer to everything just as there are absolute numbers In the end Tess decides that her life like the infinity sign is always changing but that as long as she sticks to some key principles for herself she can handle life s uncertainties

Secrets, Lies, and Algebra Wendy Lichtman, 2007 Tess has always loved math and she uses mathematical concepts to help her understand things in her life so she is dismayed to find out how much math and life can change in eighth grade

Do the Math #2: The Writing on the Wall Wendy Lichtman, 2009-03-31 In this follow up to *Do the Math Secrets Lies and Algebra* Tess learns that life like algebra sometimes has no solutions Sometimes you just have to take a risk and figure out your own answers The spring semester of eighth grade like algebra has become even more complicated for math lover Tess There s the new girl at school whom Tess is not quite sure is a friend There s bully Richard who keeps playing mean pranks on her but if she tells on him he can finally call her a snitch so she s not sure she should There s mysterious graffiti on the wall that seems to be a math code Is it meant for Tess to understand Could it have anything to do with the fire set in evil Mr Z s classroom Finally Damien seems to be hanging around more than ever but she s not sure why is it because he likes her or is it just a coincidental system like the one she learned about in algebra class In the end Tess figures out that sometimes life doesn t offer formulas to figuring out the answers Sometimes you have to take a risk and create your own formulas and discover your own solutions even if you make a few mistakes along the way
