Educational Foundations An Anthology Of Critical Readings:

Educational Foundations Alan S. Canestrari, Bruce A. Marlowe, 2020-08-05 Why teach Who are today's students What makes a good teacher Educational Foundations An Anthology of Critical Readings aims to answer such questions by helping new and future teachers develop habits of critical reflection about schools and schooling before entering the classroom Editors Alan S Canestrari and Bruce A Marlowe feature an array of provocative engaging authors who as teachers principals and policy shapers provide the latest perspectives in the field The thoroughly revised Fourth Edition features an array of bold new essays discussing today's most relevant issues including diversity school safety data in schools and teacher strikes

Educational Foundations Bruce Maxwell, Lauren Bialystok, 2022-12-15 The first reference work to provide an authoritative state of the field mapping of the foundational disciplines of education BUNDLE: Canestrari, Educational Foundations 2e + CQ Researcher, Issues in K-12 Education Alan S. Canestrari, CQ Researcher, 2009-11-15 Educational Foundations An Anthology of Critical Readings Second Edition The Second Edition of this anthology of critical readings is for students entering the teaching profession as well as those interested in carefully examining schools and schooling The updated critically acclaimed reader provides an exciting alternative to other foundations textbooks The readings are bold and refreshing and their authors eschew unquestioning compliance By taking a hard look at traditional educational practice the contributors to this anthology known for their achievements as teachers principals and policy shapers serve as models for the kind of reflective practitioners that its editors hope that students will become while in the field Issues in K 12 Education Selections From CQ Researcher Are Students Being Prepared for the Technological Age Can AP and IB Programs Raise U S High School Achievement Do Teachers Assign Too Much Homework These are just a few of the provocative questions posed in Issues in K 12 Education This engaging reader allows students to see an issue from all sides and to think critically about topics that matter to them Classroom discussion will never be dull again Critical Pedagogy in the Twenty-First Century Curry Malott, Brad J. Porfilio, 2011-03-01 This book simultaneously provides multiple analyses of critical pedagogy in the twenty first century while showcasing the scholarship of this new generation of critical scholar educators Needless to say the writers herein represent just a small subset of a much larger movement for critical transformation and a more humane less Eurocentric less paternalistic less homophobic less patriarchal less exploitative and less violent world This volume highlights the finding that rigorous critical pedagogical approaches to education while still marginalized in many contexts are being used in increasingly more classrooms for the benefit of student learning contributing however indirectly to the larger struggle against the barbarism of industrial neoliberal militarized destructiveness The challenge for critical pedagogy in the twenty first century from this point of view includes contributing to the manifestation of a truly global critical pedagogy that is epistemologically democratic and against human suffering and capitalist exploitation These rigorous democratic critical standards for measuring the value of our scholarship including this volume of essays should be the same

that we use to critique and transform the larger society in which we live and work

Using Critical Research for Educational and Social Change Tricia Kress, 2016-04-08 This volume features the works of scholar practitioners who embrace critical pedagogy and critical research as praxis in qualitative research about education The authors take an explicit stance toward social justice through education and they use critical research as a vehicle toward that end The chapters critically engage with topics such as researcher role and position in critical research collaborative research models with teachers and students exploring visual epistemology in schools and with students critical science education and cosmopolitanism and developing praxis within teacher preparation courses and teacher research Contributors push the boundaries of scholarship by presenting nuanced theoretical discussions or critical and timely educational issues via innovative forms of representation i e fiction narratives dialogues rich descriptions and visuals This book was originally published as a special issue of the International Journal of Qualitative Studies in Education

World Language Education as Critical Pedagogy Timothy G. Reagan, Terry A. Osborn, 2020-09-02 Accessible and cutting edge this text is a pivotal update to the field and offers a much needed critical perspective on world language education Building off their classic 2002 book *The Foreign Language Educator in Society* Timothy G Reagan and Terry A Osborn address major issues facing the world language educator today including language myths advocacy the perceived and real benefits of language learning linguistic human rights constructivism learning theories language standards monolingualism bilingualism and multiculturalism Organized into three parts Knowing Language Learning Language and Teaching Language this book applies a critical take on conventional wisdom on language education evaluates social and political realities assumptions and controversies in the field Each chapter includes questions for reflection and discussion to support students and educators in developing their own perspectives on teaching and learning languages With a critical pedagogy and social justice lens this book is ideal for scholars and students in foreign world language education social justice education and language teaching methodology courses as well as pre and in service teachers

Educational Foundations Alan S. Canestrari, Bruce A. Marlowe, 2004 This anthology of critical readings for students about to enter the teaching profession and for those interested in carefully examining schools and schooling features provocative engaging authors whose views are politicized but whose writing and opinions matter not because they are gadflies but because their ideas work and their achievements as teachers principals and policy shapers are so notable *Educational Foundations An Anthology of Critical Readings* is organized around the following questions Why teach Who are today's students What makes a good teacher How should we assess student learning What does a good school look like How does one develop a critical voice in the face of state mandates administrative edicts and the continuous cycle of reform and retrenchment Alan S Canestrari and Bruce A Marlowe's answers are bold and refreshing They eschew the unquestioning compliance so characteristic of new teachers Also by taking a hard look at traditional educational practice they serve as models for the kind of reflective practitioners we hope pre service students will

become when they enter the field The key feature of this anthology are the readings by authors who have discovered their own critical voices so that new teachers can begin to develop their own These readings offer a platform for discussion and debate that may be used by instructors to increase student knowledge of pedagogy and to provide authentic opportunities for potential teachers to think critically about teaching and learning

Critical Praxis Research Tricia M. Kress, 2011-08-17

Critical Praxis Research CPR is a teacher research methodology designed to bridge the divide between practitioner and scholar drawing together many strands to explain the research process not just as something teacher researchers do but as a fundamental part of who teacher researchers are Emphasizing the researcher over the method CPR embraces and amplifies the skills and passions teachers naturally bring to their research endeavours Emerging from the tradition of critical pedagogy Critical Praxis Research Breathing New Life into Research Methods for Teachers transcends longstanding debates over quantitative vs qualitative and scholar vs practitioner research The text examines the histories and current applications of common methodologies and re conceptualizes the ways that these methodologies can be used to enhance teachers identities as practitioners and researchers It also provides a critical examination of the role of Institutional Review Boards and explores the complexity and ethics of data collection data analysis and writing Through guiding questions and writing prompts the author encourages readers to think through the process of design and conducting CPR The text is theoretically rich but written in an accessible style infused with metaphor irony and humour Critical Praxis Research Breathing New Life into Research Methods for Teachers is both instructive and uplifting sending the message that research is difficult but also joyful like life itself

Critical Educational Psychology Stephen Vassallo, 2017-03-15

The field of critical studies recognizes that all knowledge is deeply embedded in ideological cultural political and historical contexts Although this approach is commonly applied in other subfields of psychology educational psychology has resisted a comprehensive critical appraisal In Critical Educational Psychology stephen Vassallo seeks to correct this deficit by demonstrating how the psychology of learning is neither neutral nor value free but rather bound by a host of contextual issues and assumptions Vassallo invites educators researchers and psychologists to think broadly about the implications that their use of psychology has on the teaching and learning process He applies a wide variety of interdisciplinary approaches to examine the psychology of learning cognitive development motivation creativity discipline and attention drawing on multiple perspectives within psychology and critical theory he reveals that contemporary educational psychology is entangled in and underpinned by specific political ideological historical and cultural contexts
