Emeka Spectrum Paperbacks:

Emeka Frederick Forsyth,1992 The author a well known Kenyan journalist and a former detainee sets his novel in an unnamed African country ruled by the Illustrious One a paranoiac despot When he demands a crackdown on dissidents the director of the special police must please him with arrests and detentions Two of the suspects a bank employee and a newspaper reporter are denounced to the authorities and detained What follows is a story of Kafkaesque horror following the men through the dungeons and torture chambers hidden in the capital of a nation masquerading as civil society The novel enjoyed instant bestseller success in Kenya *The Spirituality of the Igbo People of Nigeria as an Example of Religious Modernization in a Global World* Henry CHUKWUDI OKEKE,2020-02-18 If there is no religion in the world the world would more or less become a jungle The world will be inhuman Religion touches all aspects of human life Identifying God s will in our world today has become a major problem for many religions of the world In the past in Igbo Traditional Religion human sacrifice as well as the killing of twins were practised For the Igbo traditionalists then that was the will of the deities and equally not against God s will But following the encounter of Igbo Traditional Religion with Christianity these are no longer practised Misinterpretation of God s will by some religions of the world has given rise to religious violence religious extremism fanaticism and terrorism we are experiencing today in the world For these problems to be resolved it is pertinent that the study of various religions be taken seriously This study should be aiming at better understanding co existence respect for one another and frequent inter religious dialogues among the various religions of the world When this is achieved the believers of various religions would realize that many are worshipping one God and their desire is to communicate with Him although they may approach Him differently *Oil, Politics and Violence* Max Siollun,2009 An insider traces the details of hope and ambition gone wrong in the Giant of Africa Nigeria Africa s most populous country When it gained independence from Britain in 1960 hopes were high that with mineral wealth and over 140 million people the most educated workforce in Africa Nigeria would become Africa s first superpower and a stabilizing democratic influence in the region However these lofty hopes were soon dashed and the country lumbered from crisis to crisis with the democratic government eventually being overthrown in a violent military coup in January 1966 From 1966 until 1999 the army held onto power almost uninterrupted under a succession of increasingly authoritarian military governments and army coups Military coups and military rule which began as an emergency aberration became a seemingly permanent feature of Nigerian politics The author names names and explores how British influence aggravated indigenous rivalries He shows how various factions in the military were able to hold onto power and resist civil and international pressure for democratic governance by exploiting the country s oil wealth and ethnic divisions to its advantage Publisher s description **The Politics of Biafra: And the Future of Nigeria** Chudi Offodile,2016-11-23 The Politics of Biafra is a reflection on the importance of history in addressing present realities and the future co existence of Nigeria s multi ethnic society It analyzes the ideological struggles and conflict

in Biafra during the war with Nigeria from 1967-1970 the impact of the war and the relevance of those struggles to the current agitations for a new state of Biafra. In this historical and analytical work the author observes that nearly fifty years after the end of the Nigeria-Biafra war in 1970, Nigeria remains confronted with the Biafra dilemma. No matter its pretensions, Nigeria will at some point have to reform its present pseudo-federal arrangement to create a more inclusive, equitable and proper federal structure. If not, the country will continue to face epileptic developmental thrusts, militancy in the Niger Delta and a ruinous intensifying clamor for self-determination by disadvantaged ethnic groups, especially the Igbo.
