

# Expository Writing

Expository writing is informational writing. It often times explains how or tells why about a topic.

## Characteristics of Expository Writing

|                          |   |
|--------------------------|---|
| <b>Introduction</b>      | Expository writing needs an introduction. The introduction introduces the reader to the topic and states the main idea, thesis statement, or topic sentence.  |
| <b>Facts and Details</b> | The body of expository writing includes facts and details. Each paragraph should have a topic sentence or main idea and then 3-4 supporting sentences that give details and examples about the main idea. |
| <b>Conclusion</b>        | Expository writing needs a conclusion. This is the final paragraph and it gives the author one more opportunity to state the main idea.   |
| <b>Organization</b>      | Strong authors will use one of the non-fiction text structures to help organize their writing (problem and solution, compare and contrast, description, sequence, cause and effect).                      |

The author's purpose of expository writing is to inform.
