Technology-Enhanced Language Learning for Specialized Domains Elena Martín-Monje, Izaskun Elorza, Blanca García Riaza, 2016-03-10 Technology Enhanced Language Learning for Specialized Domains provides an exploration of the latest developments in technology enhanced learning and the processing of languages for specific purposes. It combines theoretical and applied research from an interdisciplinary angle covering general issues related to learning languages with computers, assessment, mobile assisted language learning, the new language massive open online courses, corpus based research and computer assisted aspects of translation. The chapters in this collection include contributions from a number of international experts in the field with a wide range of experience in the use of technologies to enhance the language learning process. The essays have been brought together precisely in recognition of the demand for this kind of specialised tuition offering state of the art technological and methodological innovation and practical applications. The topics covered revolve around the practical consequences of the current possibilities of mobility for both learners and teachers as well as the applicability of updated technological advances to language learning and teaching particularly in specialized domains. This is achieved through the description and discussion of practical examples of those applications in a variety of educational contexts. At the beginning of each thematic section readers will find an introductory chapter which contextualises the topic and links the different examples discussed. Drawing together rich primary research and empirical studies related to specialized tuition and the processing of languages, Technology Enhanced Language Learning for Specialized Domains will be an invaluable resource for academics, researchers and postgraduate students in the fields of education, computer assisted language learning, languages and linguistics and language teaching.

Emerging Technologies and Pedagogies in the Curriculum Shengquan Yu, Mohamed Ally, Avgoustos Tsinakos, 2020-01-03 This book explores the technologies that can be used in curricula to make education smarter and more adaptive in order to better meet the needs of today's learners.
