## **Finding The Key Selected Writings Of Alexander Goehr:**

**Finding the Key** Alexander Goehr, 1998 *Finding the Key* deals with the fundamental issues that face the composer today In the remarkable Letter to Boulez that opens this collection of essays Alexander Goehr assesses his own progress away from the avant garde of the 1950s while his account of the Manchester School of which he along with Maxwell Davies and Harrison Birtwistle was one of the leading lights reveals what it was like to grow up musically in a world where modernism was considered almost as a vice Messiaen's composition classes are described with loving detail but Schoenberg and Stravinsky were and remain at the heart of Goehr's musical concerns Few books have revealed with such thoughtful honesty how complex the role of the composer is in contemporary society *The Classical Revolution* John Borstlap, 2017-06-15 Essays by a prominent contemporary composer explore a current trend in classical music away from atonal characteristics and toward more traditional forms Topics include cultural identity musical meaning and the aesthetics of beauty **The Music of Hugh Wood** Edward Venn, 2017-07-05 *The Music of Hugh Wood* provides the first ever in depth study of this well known yet only briefly documented composer Over the years Wood b 1932 has produced a sizeable oeuvre that explores the established genres of symphony concerto and quartet on the one hand and songs and choruses on the other Underpinned by an awareness of recent philosophical theoretical and analytical concepts Dr Edward Venn highlights both the technical basis of Wood's music and the expressive force of his work In doing so a picture emerges of Wood as an artist of considerable merit and power The eclectic blend of national and international influences in the music of Hugh Wood combine to create an individual and distinctive musical language all his own The book provides an overview of Wood's style focussing on his engagement with modernism and the melodic rhythmic harmonic and formal characteristics of his musical language From here a more detailed consideration of Wood's development as a composer is advanced in which his technical development is illustrated alongside an exploration of various aspects of musical meaning embodied in his works In the process numerous analytical strategies ranging from formalist to narrative structures are utilized demonstrating the fecundity and expressivity of Wood's music **Schoenberg: 'Night Music' - Verklärte Nacht and Erwartung** Arnold Whittall, 2023-11-30 *Synthesises and refocuses the wealth of recent research into two of Arnold Schoenberg's major compositions from the years 1899 1909* *Modern Music and After* Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War this fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language The

initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding. This constant expansion of musical thinking since 1945 has left us with no singular history of music. Griffiths's study accordingly follows several different paths showing how and why they converge and diverge. This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the recent explosion of scholarly interest in the latter half of the twentieth century. In particular the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s. Griffiths then moves the book into the twenty-first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino. For its breadth, wealth of detail and characteristic wit and clarity the third edition of *Modern Music and After* is required reading for the student and the enquiring listener.

**British Musical Modernism** Philip Rupprecht, 2015-07-09  
*British Musical Modernism* explores the works of eleven key composers to reveal the rapid shifts of expression and technique that transformed British art music in the post-war period. Responding to radical avant-garde developments in post-war Europe, the Manchester Group composers Alexander Goehr, Peter Maxwell Davies and Harrison Birtwistle and their contemporaries assimilated the serial structuralist preoccupations of mid-century internationalism to an art grounded in resurgent local traditions. In close readings of some thirty-five scores, Philip Rupprecht traces a modernism suffused with the formal elegance of the 1950s, the exuberant theatricality of the 1960s and in the works of David Bedford and Tim Souster the pop, minimalist and live electronic directions of the early 1970s. Setting music analytic insights against a broader social historical backdrop, Rupprecht traces a British musical modernism that was at once a collective artistic endeavor and a sounding myth of national identity.
